ICT SKILLS for KIDS

Exciting Activities

Grade 5

INTRODUCTION

Hello Friends

My name is Kimo,
I will guide you throughout your ICT Skills book.
What is your name?

_____

KIMO KEY

Activity on Tablet

Can I help?

Activity on computer

Observation

Reward

Tips

Extra Challenge

Activity in books

Note to teacher

NOTE TO TEACHERS:

To complete the following activity, teachers should download Superheroes pictures especially Batman , Flash, Spiderman and Superman and insert them in Pictures folder.

Did you know?

TABLE OF CONTENTS

Unit 1

Working safely with Computers..... 1 - 9

Unit 2

Performing Advanced Computer Operations .....10 - 19

Unit 3

Word processing : Working with Objects .....20 - 52

Unit 4

Computers in daily life..... 53 - 64

Unit 5

Developing Advanced Skills in Spreadsheet.....65 - 101

Unit 6

Working with Advanced Animation Features.....102 - 132

Unit 7

Working with Emails .....133 - 160

Unit 8

Multimedia: Working with Paint 3D.....161 - 174

UNIT 1

Working safely with Computers

AIM:

- To create an awareness of online dangers and to work safely with computers.

LEARNING OBJECTIVES:

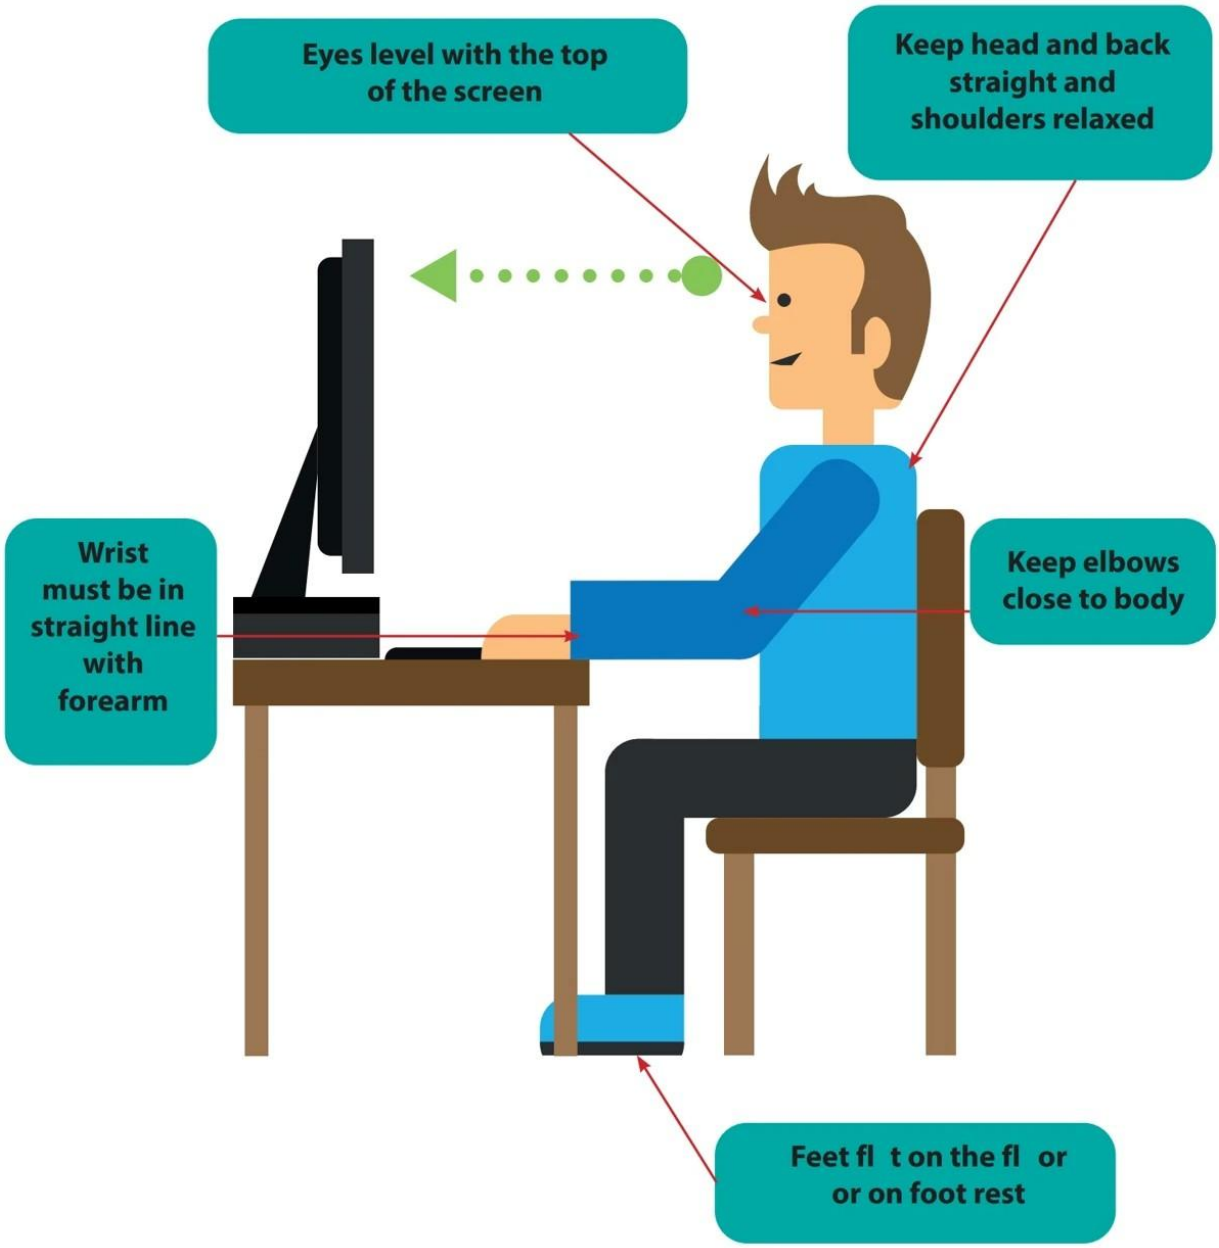
By the end of this unit, the pupils will be able to:

- Show understanding of potential health problems when using ICT devices.
- Show understanding of dangers when accessing online content.
- Show understanding of how good or accurate online content are.
- Show understanding of computer ethics.

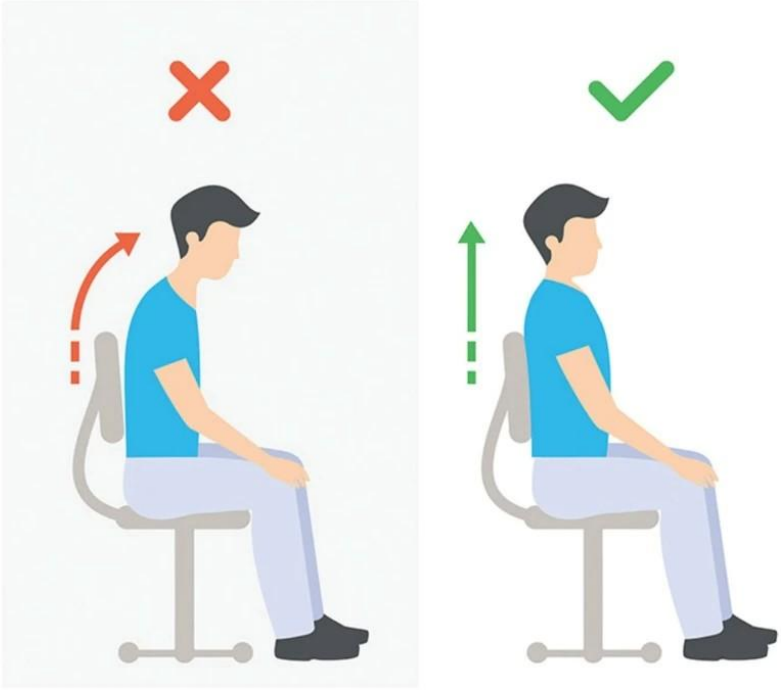
COMPUTER LAB RULES

- No Food and Drink
- Enter and Exit Quietly
- Do not run in the Lab
- Do not touch cables
- Do not use the computer without permission
- Respect your teacher and classmates
- Ask before you print
- Keep the computer lab clean
- Do not move, change or delete files on th computer
- Do not use the internet without permission

GOOD SITTING POSTURE IN FRONT OF THE COMPUTER



SITTING POSTURE



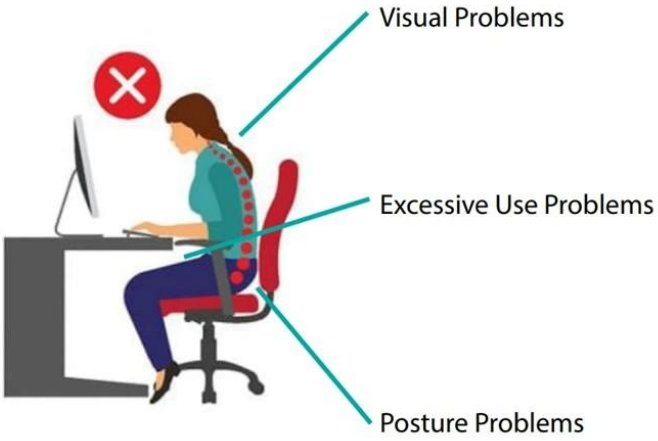
When you sit in the computer lab, use a good sitting posture.

1. Sit up straight
2. Eyes level with the monitor
3. Shoulders and arms relaxed
4. Feel your back supported.

HEALTH AND SAFETY

Excessive and improper computer use causes several health risks. It is important to reduce the risks with good postures and procedures.

Common Problems



Excessive use Problems

Problem

Excessive use of mouse and keyboard affects muscles and joints causing pain.

Solution

- Use a well-designated keyboard.
- Sit up straight.
- Keep forearms horizontal.

Posture Problems

Problem

- Bad sitting posture can lead to back problems.
- Sitting still for long period can cause back, neck and shoulder pains.

Solution

- Walk around to stretch your legs.
- Take regular breaks.
- Use a well-designated chair.

Visual Problems

Problem

- Looking too much at the monitor causes eye pains and headaches.
- Poor lighting makes the monitor difficult to read and affect the eyes.

Solution

- Keep eyes level with the top of the monitor.
- Ensure background lighting is good.

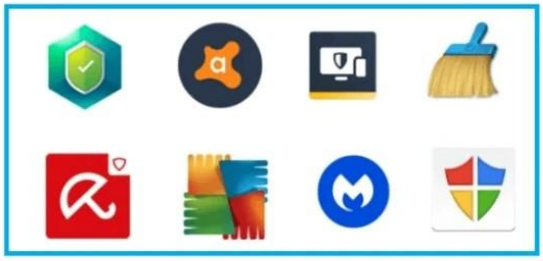
INTERNET SAFETY

- The Internet is a means to learn, shop, play games, and talk to your friends.
- There are also dangers while surfing the internet like hacking and cyber bullying.

Safety precautions online

1	2	3	4	5
Use of anti-virus such as Avast, AVG and Symantec Norton.	Do not go on suspicious websites.	Do not chat with strangers.	Do not share any password with strangers.	Do not open email from unknown people.

SAFETY PRECAUTIONS ONLINE

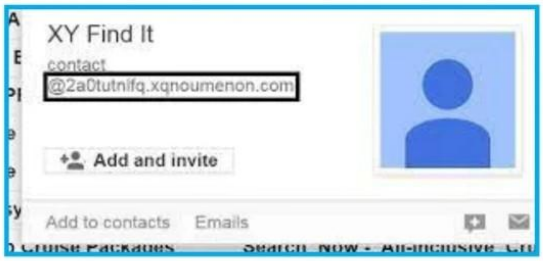


Use of antivirus such as Avast, AVG and Symantec Norton.

Do not go on suspicious websites.

Do not chat with strangers.

Do not share any password with strangers.



Do not open email from unknown people

COMPUTER ETHICS

- Computer ethics are proper ways of using computers.
- Online contents can be downloaded which are free to use such as Google Chrome .

chrome

- Other content need to be purchased such as Microsoft Windows 10 .

Windows 10

COMPUTER ETHICS

ACTIVITY 1

- Using Word 2019, create a simple poster to highlight the health problems that may arise when using ICT equipment.
- You can use the following tools in your poster:
  - Insert Pictures
  - Insert Table
  - Formatting options: Text (bold, underline and italics), text Size, text Colour
  - Use of Bullets

NOTE TO TEACHERS:

Do insert some pictures or photos in the pictures folder.

UNIT 2

Performing Advanced Computer Operations

AIM:

- To perform some advanced computer operations.

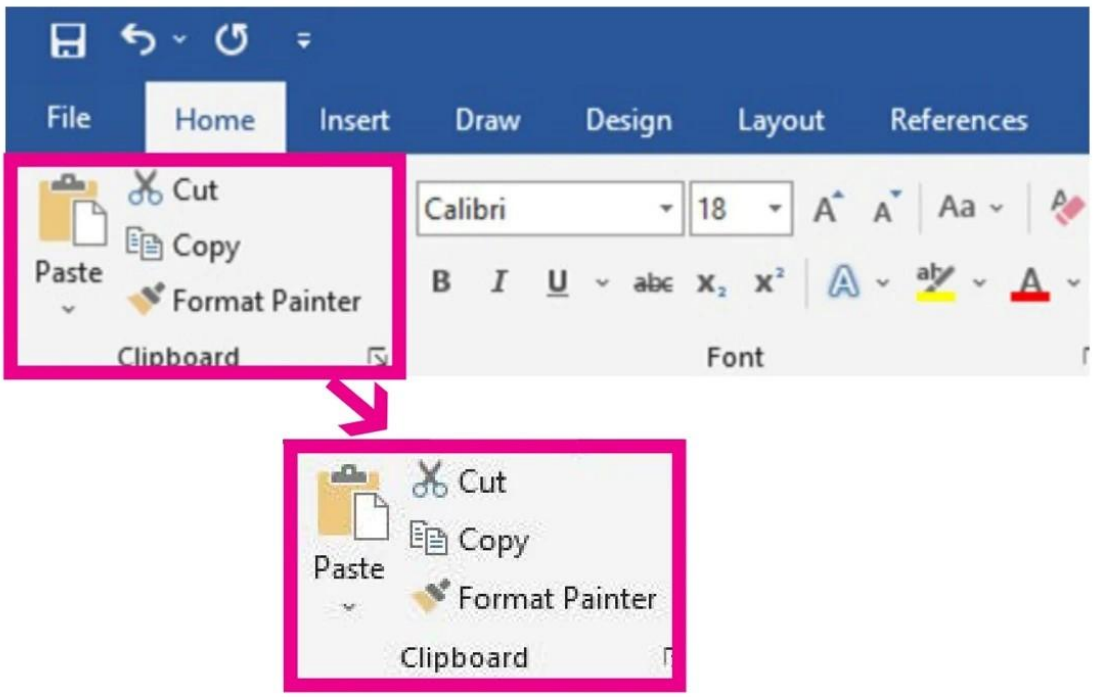
LEARNING OBJECTIVES:

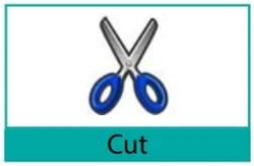
By the end of this unit, the pupils will be able to:

- Use the cut, copy and paste options in several programs.
- Move file and older from one place to another.
- Use several storage devices.
- Work on several programs at a time.

CUT, COPY AND PASTE

Icon of Cut, Copy and Paste in Word 2019.





Used to cut selected text in any application

Used to copy selected text in any application

Used to paste a cut or copied text in any application

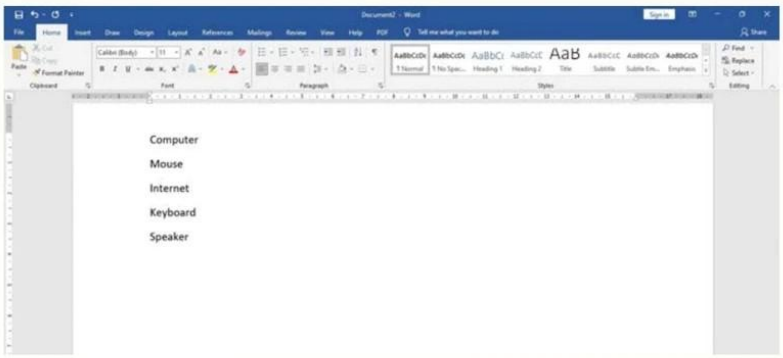
CUT AND PASTE

ACTIVITY 1

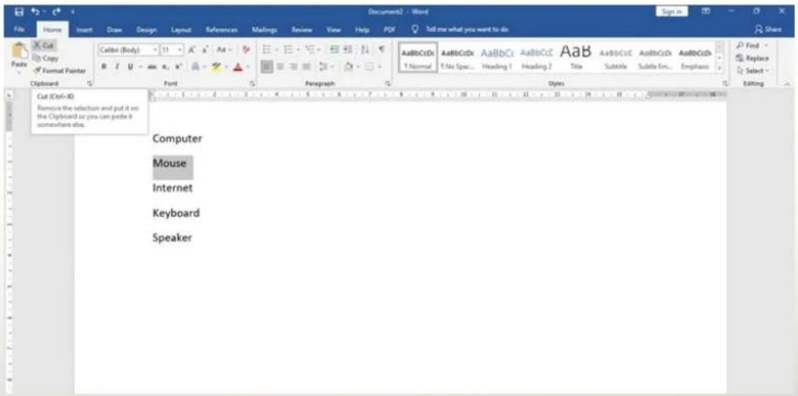
Activity 1: Cut and Paste

Open Word 2019 to perform the following tasks:

- Step 1: Type the words below:



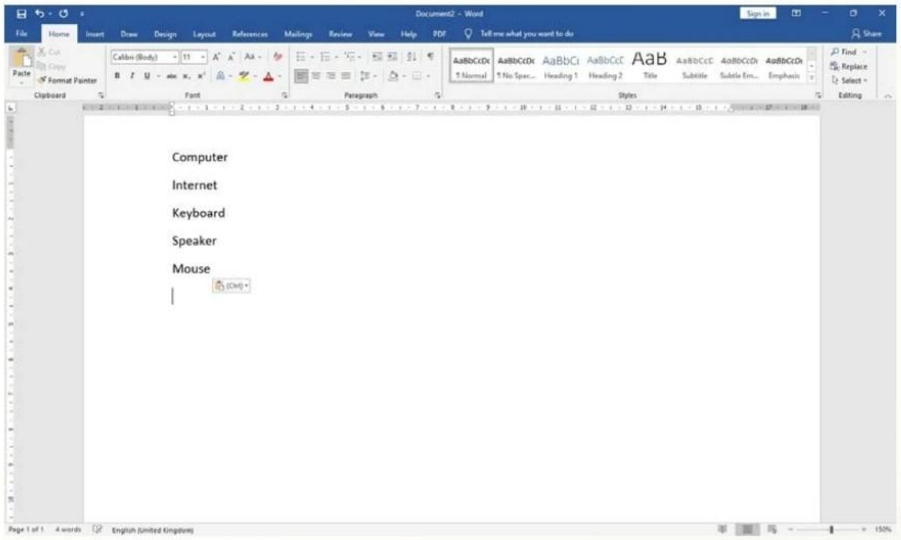
- Step 2: Select the word "Mouse" and click on Cut



CUT AND PASTE

ACTIVITY 1

- Step 3: Click after the word "Speaker".
- Step 4: Press Enter key to change line.
- Step 5: Click on Paste.
- Step 6: Save your work as "Cut and Paste".



- **Observation:**

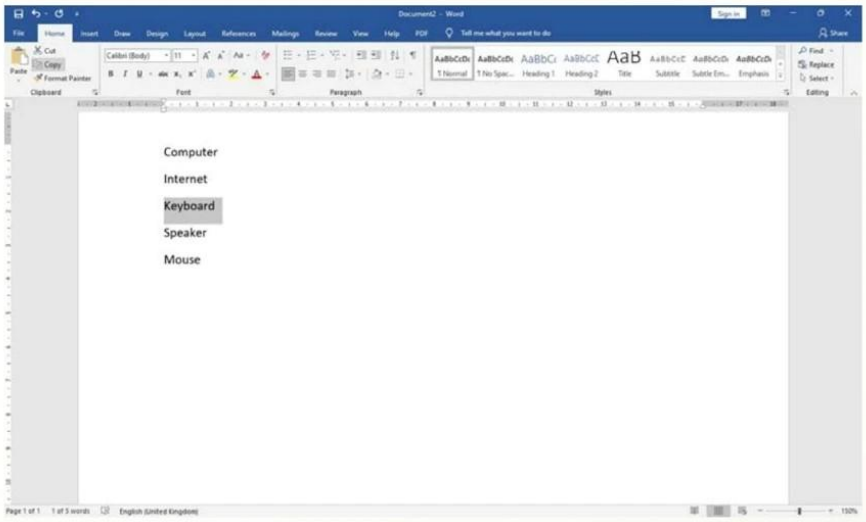
The word "Mouse" appears now in the last line.

COPY AND PASTE

ACTIVITY 2

Activity 2: Copy and Paste

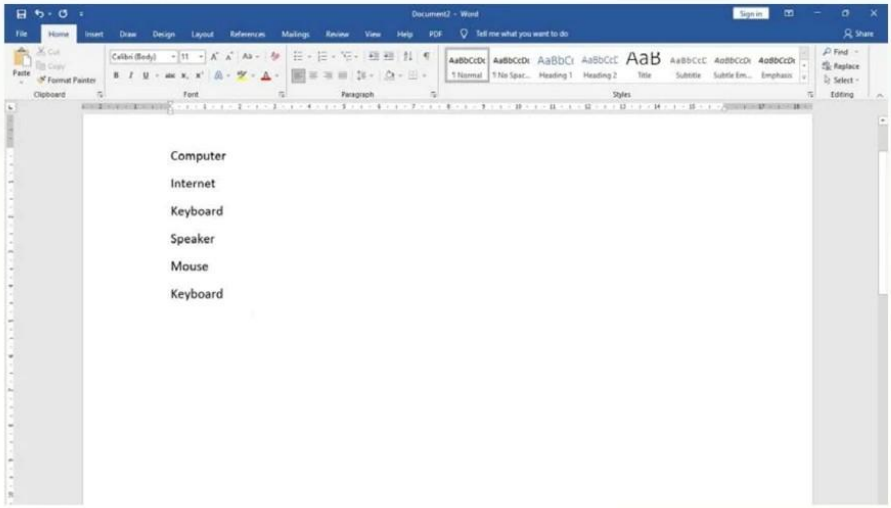
- Step 1. Open the Cut and Paste file.
- Step 2. Select the word "Keyboard", go to the Home Tab and click on Copy.



- Step 3: Click after the word "Mouse" and change line.
- Step 4: Click on Paste.

CUT AND PASTE

ACTIVITY 2

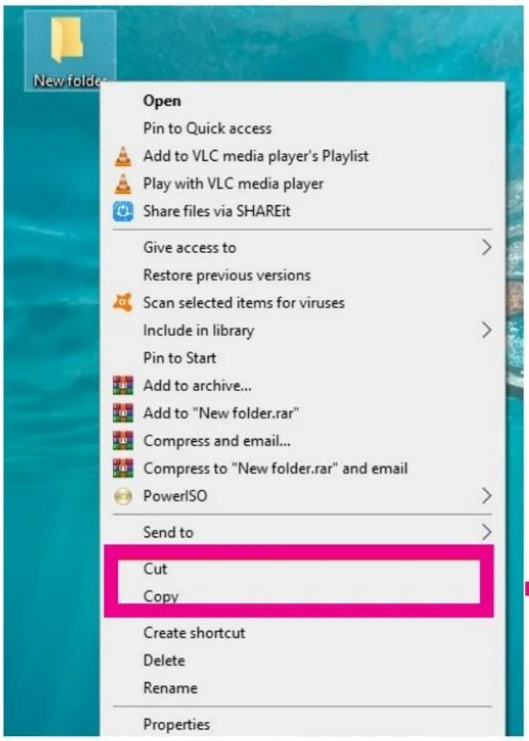


- **Observation:**

Observe that the word "Keyboard" appears two times.

MOVING FILES AND FOLDERS

Files and folders can also be moved using the **Cut, Copy** and **Paste** options.



If you right-click on any file or folder, you will get the option to copy or cut the file or folder as in the picture.

Then if you right-click in another area of the desktop or window, you will get the paste option to move your file or folder.

NOTE TO TEACHERS:
The above explanation can be done through an activity.

STORAGE DEVICES

Storage devices are used to save data.

Some examples of storage devices are:

Hard Disk

CD

DVD

Pen drive

Data can also be saved on the internet through the following:

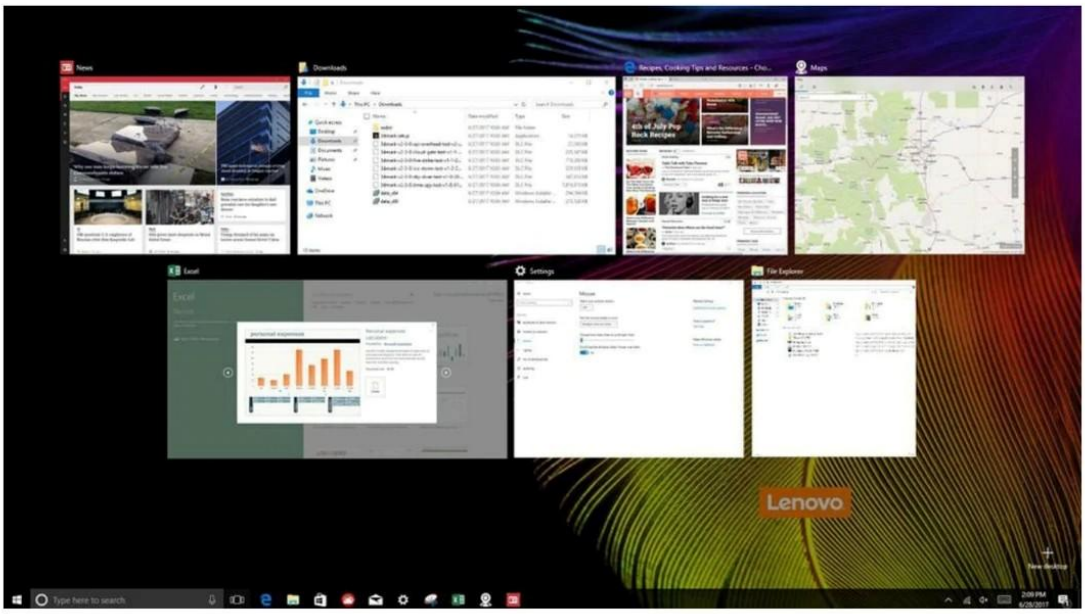
Google Drive

One Drive

iCloud

USE OF SEVERAL PROGRAMS

In Windows, we can use several programs at the same time.



NOTE TO TEACHERS:

To demonstrate to pupils that all opened programs are shown on the taskbar as buttons.

USE OF SEVERAL PROGRAMS

ACTIVITY 3

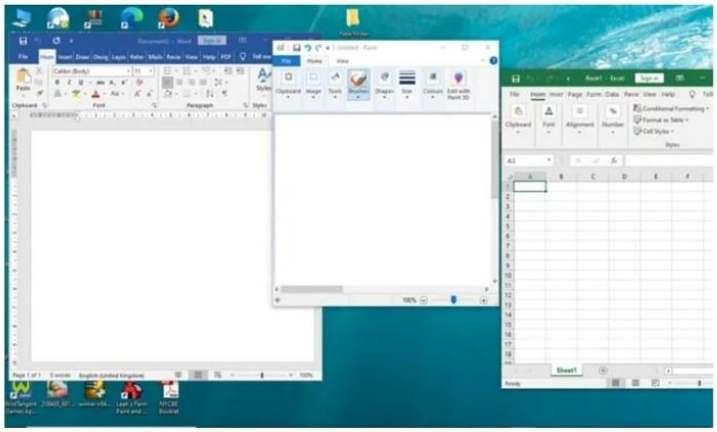
Activity 3 – Opening Several programs

- Step 1: On your desktop, try to open the following programs and resize them:

  (i) Word 2019

  (ii) Paint

  (iii) Excel 2019



Taskbar buttons:

- **Observation:**

You should be getting the 3 windows of the 3 different programs on your desktop.

UNIT 3

Word Processing: Working with Objects

AIM:

- To develop advanced word processing skills.

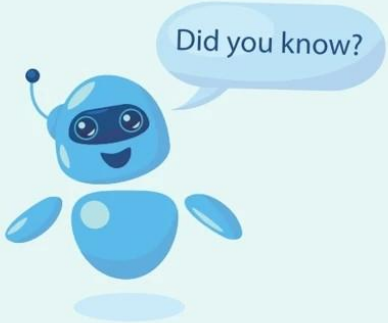
LEARNING OBJECTIVES:

By the end of this unit, the pupils will be able to:

- Design and format a colourful word document.
- Insert and manipulate a picture.
- Insert a table in a word document.
- Insert and manipulate shapes.
- Use Word Art.

Snap Recap

You have already been introduced to using word processing and its features in the previous grades. Word 2019 offers additional formatting tips like picture effects, picture border, picture colour, page colour and watermark.



Did you know ?

Microsoft Word is the most popular word processing program around the world.

It is estimated that there are around 1.2 billion of people who use Microsoft Word to edit their documents.

INSERTING PAGE COLOUR

A Page colour enhances the appearance of a word document.

ACTIVITY 1

Activity 1: Inserting Page Colour

- Step 1: Create a new word document using Word 2019.
- Step 2: Click on the **Design tab** on the Ribbon.

- Step 3: Click on **Page Color** button.

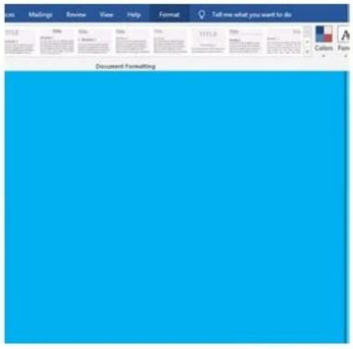
- Step 4: Click on **Light blue** color.

INSERTING PAGE COLOUR

ACTIVITY 1

- **Observation:**

The page changes colour from white to light blue.

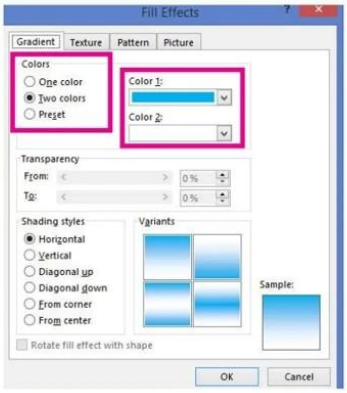


- Step 5: Now click again on **Page Color** and click on **Fill Effects**.

INSERTING PAGE COLOUR

ACTIVITY 1

- Step 6: Click on **two colours** and click on **light blue** and **white colour** as shown below and then click Ok .



- **Observation:**

The Page changes colour from light blue to two colours namely white and blue together.

- Step 7: Save your work as **myposter** on Desktop.

INSERTING PAGE COLOUR

EXTRA CHALLENGE

- I try by myself to create a new word document and I insert two different colours of my choice.
- I try to explore fill e ects panels again.
- I insert a different page colour by using Texture.

INSERTING A PAGE BORDER

A Page border is a frame that also enhances the appearance of a document.

ACTIVITY 2

Activity 2: Inserting a page border

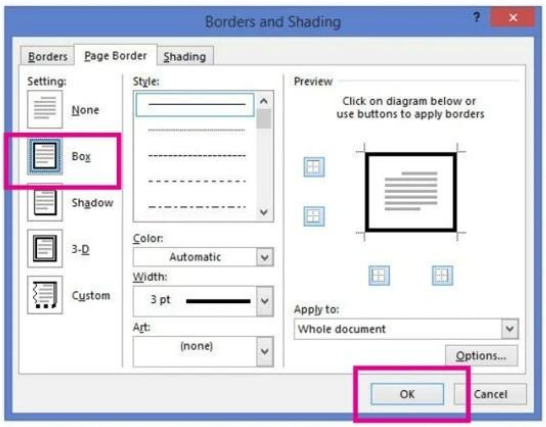
- Step 1: Open **myposter** file on the Desktop.
- Step 2: Click on the **Design tab** on the Ribbon.

- Step 3: Click on **Page Border.**

INSERTING A PAGE BORDER

ACTIVITY 2

- Step 4: Click on **box** and click **Ok.**



- **Observation:**

A Black thick box appears as page color .

- Step 5: Save your work again and close it.

INSERTING PAGE COLOUR

EXTRA CHALLENGE

- I try to put a new border style to a new word document.
- I insert another page border using Art.

INSERTING WATERMARK

A watermark is an image or text that appears behind the main text of the document.

ACTIVITY 3

Activity 3: Inserting a page border

- Step 1: Open **myposter fil** on the Desktop.
- Step 2: Click on the **Design tab** on the **Ribbon**.

- Step 3: Click on **Watermark.**

- Step 4: Click on **Do Not Copy 1**.

INSERTING WATERMARK

ACTIVITY 3

- **Observation:**

A grey Text named 'DO NOT COPY' appear in the-background.

- Step 5: Save your work and close it.

EXTRA CHALLENGE

- **I try to create a custom watermark by myself.**
- **I try to create a picture watermark by myself.**

INSERTING A PICTURE

A picture is a drawing or painting that gives a good look to a word document. Example of pictures:

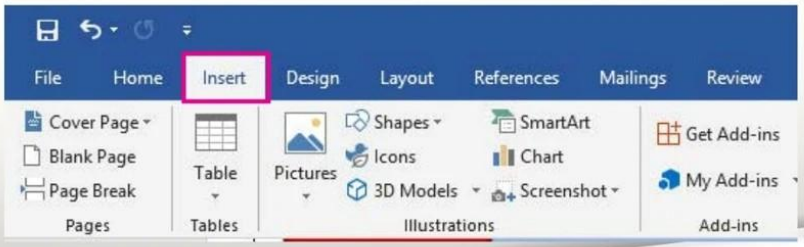
ACTIVITY 4

NOTE TO TEACHERS:

To complete the following activity, teachers should download Superheroes pictures especially Batman , Flash, Spiderman and Superman and insert them in Pictures folder .

Activity 4: Inserting a Picture

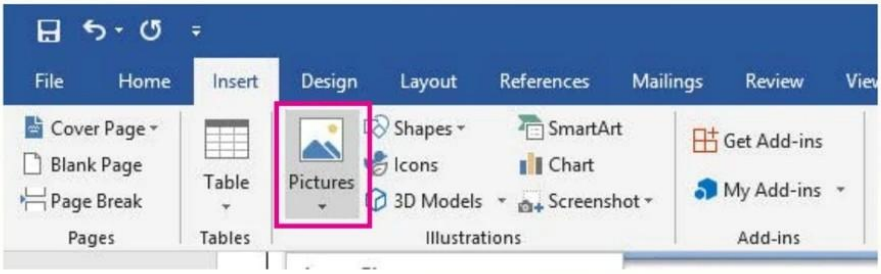
- Step 1: Create a new word document using Word 2019.
- Step 2: Click on the **Insert tab** on the Ribbon.



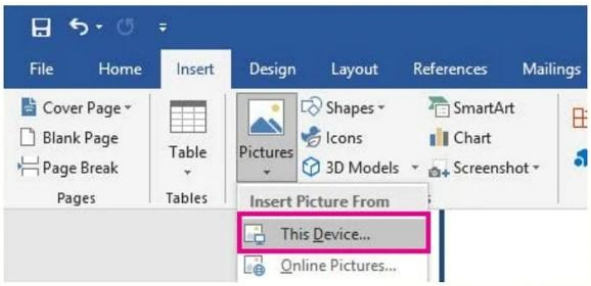
INSERTING A PICTURE

ACTIVITY 4

- Step 3: Click on the **Pictures** button.

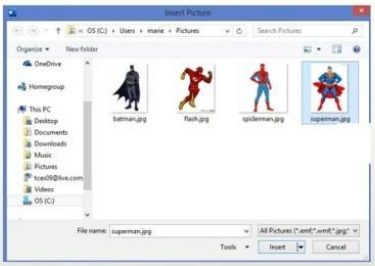


- Step 4: Click on **This Device** button.



- **Observation:**

The Pictures folder will appear on the screen.

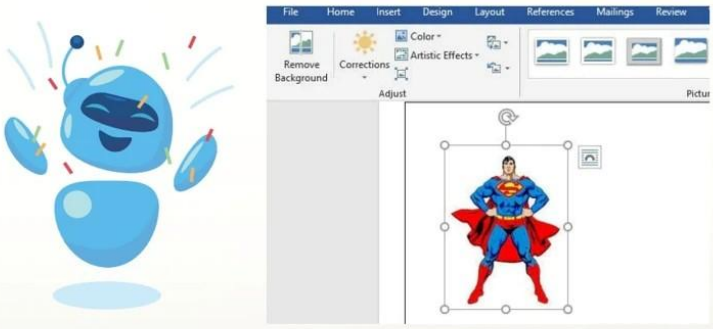


INSERTING A PICTURE

ACTIVITY 4

- Step 5: Double Click the **Superman picture** to add it to your document.

- The superman picture has been added to your document.



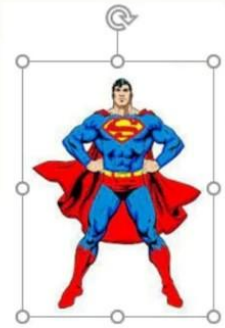
- Step 6: Save your work as **Mysuperman** on the Desktop.

USING WRAP TEXT TO MOVE A PICTURE

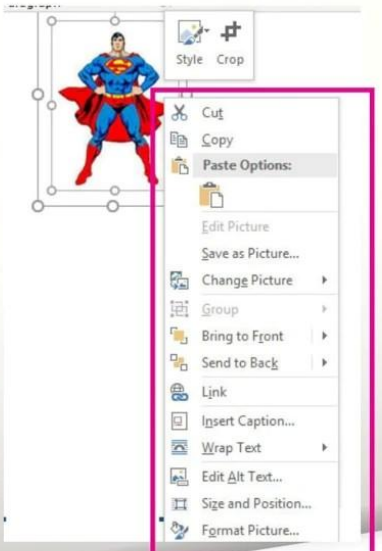
ACTIVITY 5

Activity 5: Using wrap text to move a picture

- Step1: Click on the **Superman picture** in your document to select it.



- Step 2: Right click the selected picture to get a list of options.

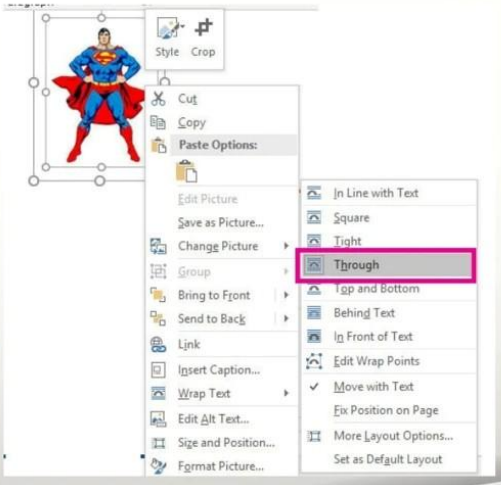


USING WRAP TEXT TO MOVE A PICTURE

ACTIVITY 5

- Step 3: Place the mouse pointer on **Wrap Text**. A List of options will appear .

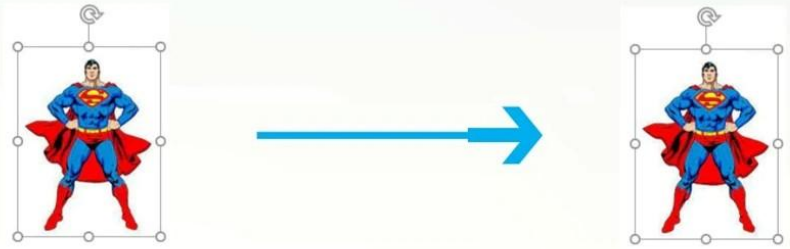
- Step 4: Click **Through** Text option.



USING WRAP TEXT TO MOVE A PICTURE

ACTIVITY 5

- Step 5: Now drag the picture to another area of the document.



- Step 6: Release the mouse button.

- Step 7: Save and close your work.

RESIZING THE PICTURE

ACTIVITY 6

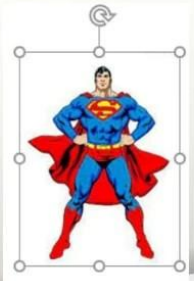
Activity 8: Resizing the picture

- Step 1: Open **MySuperman fil** from the desktop.
- Step 2: Select the **Superman** picture that you will resize.

- Step 3: Place the mouse pointer over one of the circles surrounding the superman picture.

- Step 4: Press and hold the mouse pointer. Move the pointer to resize the superman picture.

Before



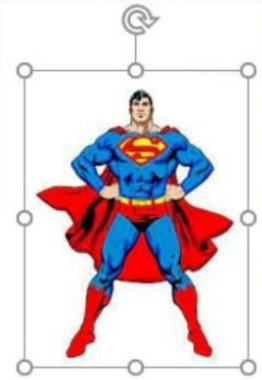
After

ADDING PICTURE BORDER

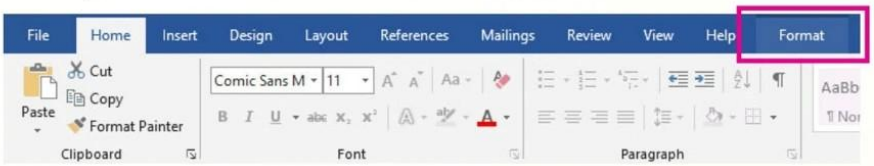
ACTIVITY 7

Activity 7: Adding picture border

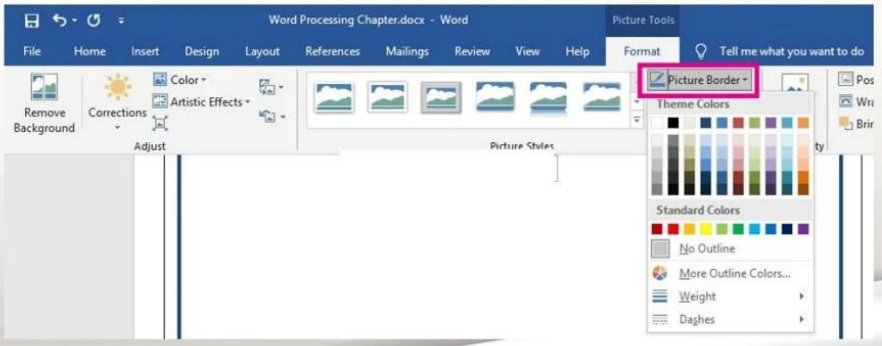
- Step 1: Select the resized Superman picture.



- Step 2: Click on the **format** tab on the Ribbon.



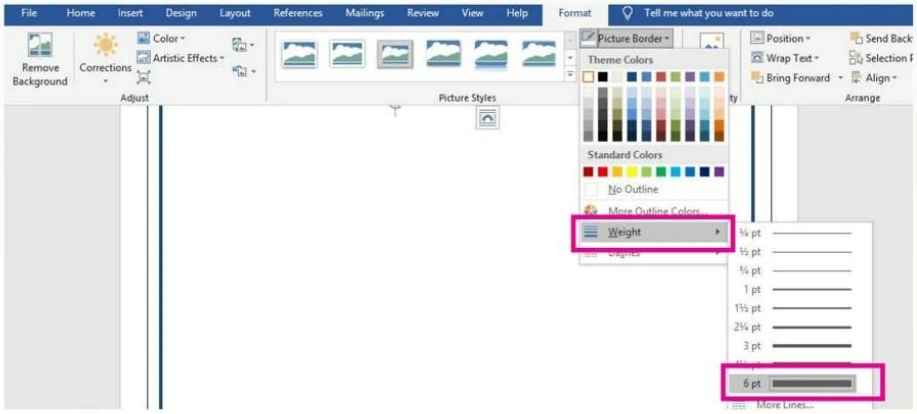
- Step 3: Click on **Picture Border**. A drop-down menu will appear.



ADDING PICTURE BORDER

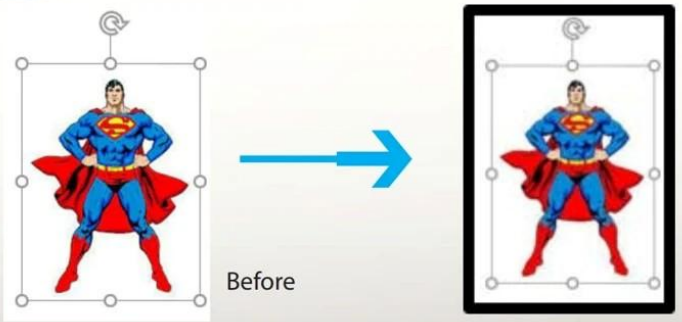
ACTIVITY 7

- Step 4: Click on **Weight** and click on **6pts.**



- **Observation:**

A thick picture border will appear as shown.



Before

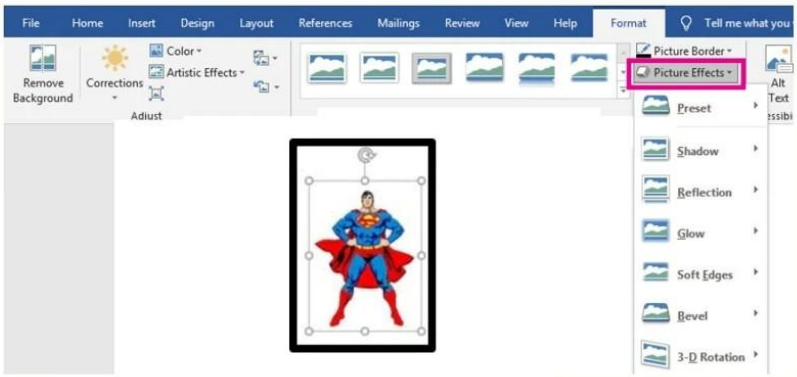
After

ADDING PICTURE EFFECTS

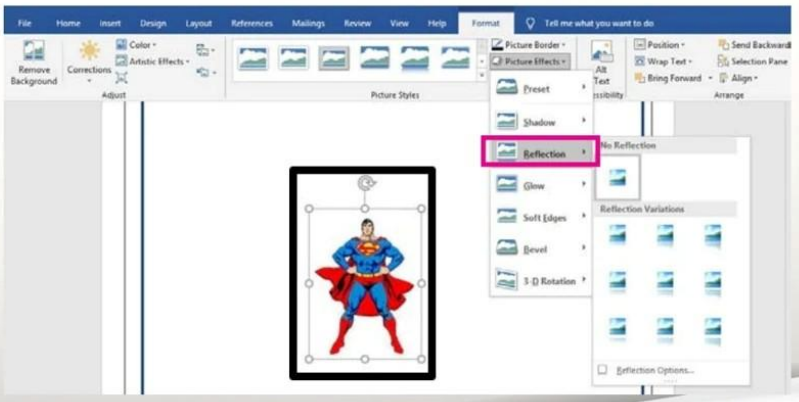
ACTIVITY 8

Activity 8: Adding Picture Effects

- Step 1: **Repeat steps 1 & 2** from **Activity 7** using the **new thick border Superman picture.**
- Step 2: Now click on **picture effects**.



- Step 3: Click on **Refle tion**.



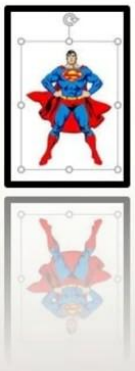
ADDING PICTURE BORDER

ACTIVITY 8

- Step 5: Click on **Full Refle tion Offset 8 points**.

- **Observation:**

Refle tion is formed with the superman picture.



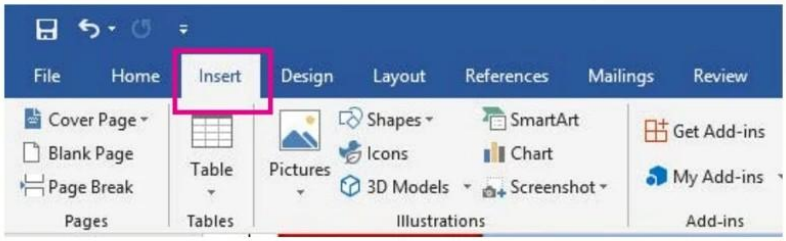
- Step 6: Save and close your work.

DRAWING SHAPES

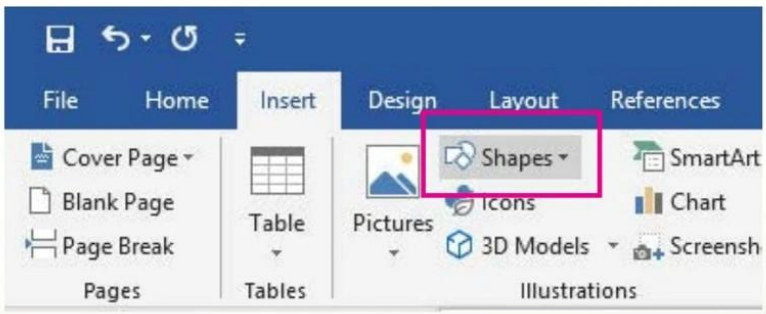
ACTIVITY 9

Activity 9: Drawing Shapes

- Step 1: Create a new word document using Word 2019.
- Step 2: Click on the **Insert tab** on the ribbon .



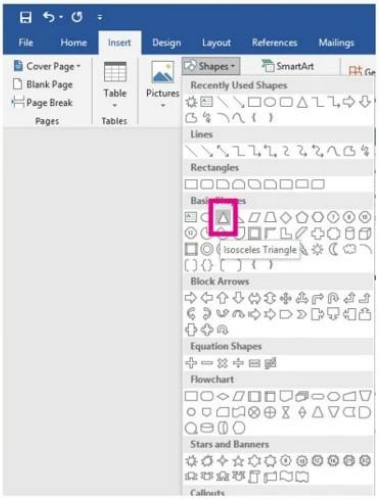
- Step 3: Click on the **Shapes** button.



DRAWING SHAPES

ACTIVITY 9

- Step 4: Choose the **triangle shape**.



- **Observation:**

The mouse pointer changes from **to**

DRAWING SHAPES

ACTIVITY 9

- Step 5: Press and hold the left mouse button. Move the pointer diagonally to draw your triangle shape.

- Step 6: Save your work as **"My Shape"** on the Desktop and close it.

EXTRA CHALLENGE

- **I try to insert a square by myself.**
- **I try to insert a rectangle by myself.**
- **I try to insert a circle by myself.**

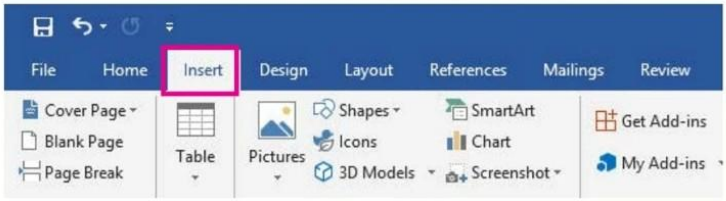
INSERTING A TABLE IN A WORD DOCUMENT

A table is used to organise information within a document. A table consists of rows and columns.

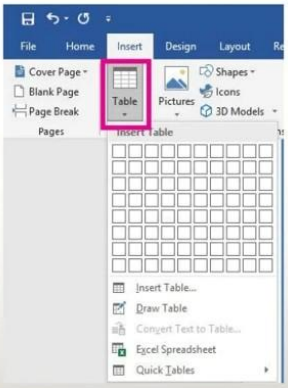
ACTIVITY 10

Activity 10: Inserting a table in a word document

- Step 1: Create a new word document.
- Step 2: Click on **Insert Tab** on the ribbon.



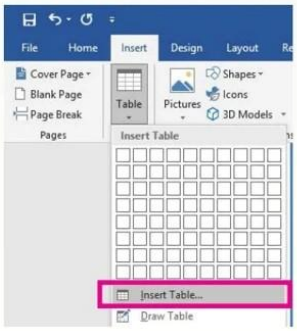
- Step 3: Click on **Table.**



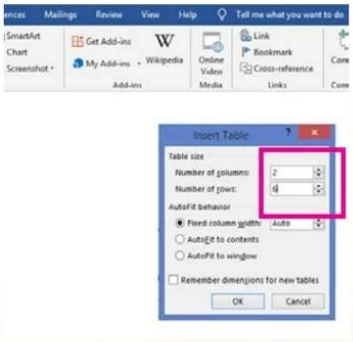
INSERTING A TABLE IN A WORD DOCUMENT

ACTIVITY 10

- Step 4: Click on Insert Table.



- Step 5: Use the arrow to insert the correct number of Columns and Rows.



- Step 6: Insert the number of Columns to 2 and the number of rows to 6. Click on OK.

INSERTING A TABLE IN A WORD DOCUMENT

ACTIVITY 10

- **Observation:**

A blank table will appear on the page.

- Step 7: Fill the table as shown below.

FOOTBALL TEAM NAMES	COUNTRIES
Liverpool	England
Paris Saint Germain	France
Inter Milan	Italy
Real Madrid	Spain
Bayern Munich	Germany

- Step 8: Save your work as **Mytable** on Desktop.

INSERTING TABLE

EXTRA CHALLENGE

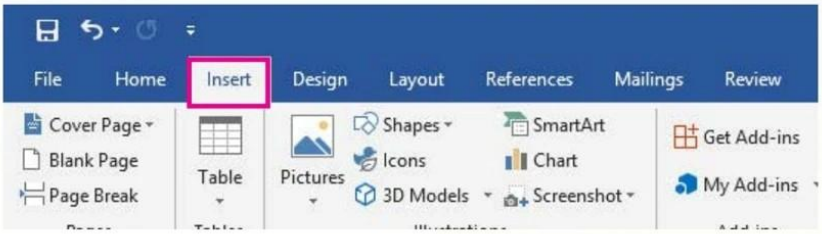
- **I open again Mytable document again on the desktop.**
- **I try to reproduce the tables found below with both texts and images.**

NAME OF COMIC	CHARACTER PICTURE
Superman	
Batman	
Spiderman	

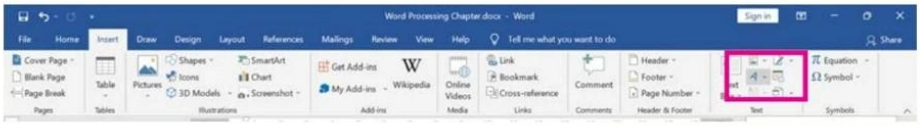
INSERTING WORD ART

ACTIVITY 11

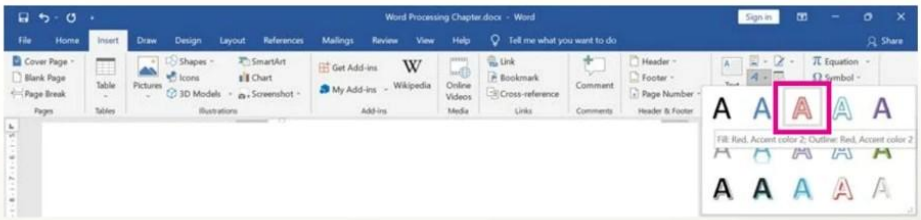
- **Activity 11: Inserting word art**
- Step 1: Create a new word document.
- Step 2: Click on the **Insert tab** on the Ribbon.



- Step 3: Click on the **Word Art** button.



- Step 4: Choose the **Word Art Fill Red Accent color 2**.



INSERTING WORD ART

ACTIVITY 11

- **Observation:**

This edited WordArt text will open.

- Step 5: Erase the text "1. Your text here".
- Step 6: Type the text **Liverpool Football Club**.

- **Observation:**

The Liverpool Football Club Word Art will appear on the document.

- Step 7: Save your work as **Liverpool Football Club Word Art** and close it.

INSERTING WORD ART

EXTRA CHALLENGE

I try to insert fi e different Word Art by myself and I type these words:

Paris Saint Germain Football Club

Chelsea Football Club

Inter Milan Football Club

Real Madrid Football Club

Arsenal Football Club

WORKING WITH OBJECTS

EXTRA CHALLENGE

I try to reproduce the poster below by putting in practice the different things I have learnt in this chapter.

Designing tips

- **Insert Word Art**
- **Insert Pictures**
- **Insert Picture Effects**
- **Insert Picture Border**
- **Insert Page Color**
- **Insert Page Border**
- **Insert Table**
- **Insert font text color**
- **Insert Watermark**

UNIT 4

Computers in daily life

AIM:

- To describe how computers have affected the way people live.

LEARNING OBJECTIVES:

At the end of the unit, pupils should be able to:

- Familiarize with the importance of computers in our lives.
- Show awareness that computers have facilitated our daily routines.
- Show an understanding of how computers have affected our social lives.
- Use of computers to solve problems.

COMPUTERS IN DAILY LIFE

Let us recap on the importance and the different uses of computers in our lives.

Computers have made our life easier as we now have more sophisticated types of computers like tablets.

Smartphone is one example of it.

Advantages of using computers:

- Computers make life easier.
- Computers do not get tired.
- Computers are accurate.

COMPUTERS IN DAILY LIFE

Places where we use computers namely are:

Office

Bank

Airport

COMPUTERS IN DAILY LIFE

ACTIVITY 1

Activity 1: Computers in daily life

1. Can you name 4 other places where computers are used?

a. _____

b. _____

c. _____

d. _____

Now, let's try to think by yourself and answer the following question.

2. List down some uses of computers.

_____

_____

_____

_____

_____

_____

_____

_____

_____

COMPUTERS IN DAILY LIFE

Internet has made life easier and WIFI connections are available in food courts, in bus, at school, in colleges and in public places.

YouTube, Google and other online applications are available anytime at any place. We can check our mails on our smartphone and get notified.

Overall,the invention of computers have eased our lives in many ways and we are depended on them.

Can you imagine life without washing machines / dish washer?

Or would you imagine waiting for the postman coming to drop an important birthday invitation for you?

Imagine mom and dad are coming home with loads of papers.

How about queueing up to retrieve money from banks for hours?

COMPUTERS IN DAILY LIFE

What about looking up things from encyclopedia / dictionary?

Computers have changed the way that the world works in many different ways.

Some of these changes are positive .

And some of these changes have had negative effects on our lives.

COMPUTERS IN DAILY LIFE

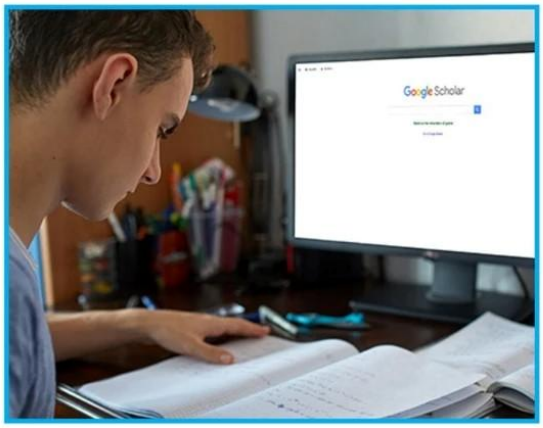
In Medical Field

Computers help to easily take appointments, make diagnosis and carry out everyday tasks.

In the office, it has replaced all the paper works and the load of work has reduced in time and space as well – there is no need to save and use big fat files.

COMPUTERS IN DAILY LIFE

The computer can serve many purposes.



Assisting in research.

Finishing homework.

Keeping in touch with loved ones, like Zoom and WhatsApp applications or even Facebook.

COMPUTERS IN DAILY LIFE

People tend to get lost in the "virtual world" and get addicted to those screens. They don't know how to behave and socialize in real life.

Post Pandemic 2020 has emerged with the dependance of computers and internet access so much that:

For educational sector, classes are held via online teaching classes.

Work from home - online meeting

Online classes

Almost everything is digitalized, replacing the human touch where robots are being used.

HOW COMPUTERS AFFECTED SOCIAL LIFE?

Increased split families

Mobile phones have reduced communication between family members.

Health issues

Online Harrasement

Cybercrime

USE OF COMPUTERS TO SOLVE PROBLEMS

Nevertheless, computers have been of great help in our daily lives and have indeed facilitated our communication as well.

The following activity will help you better with it.

ACTIVITY 2

Activity 2: Use of computers to solve problems

1. Long ago we used to have letters posted by airmail to get news of our families living abroad, and we needed to wait months to get back the answers. Today we have …….. (web) and applications like,…… and skype for video calls.

2. Grandpa used to wake up with his morning tea and his newspaper. Dad followed his step too. The only difference is that he now checks his S__a___t p__ ___ ___ e one for all the national and international news.

Computers are very essential in recent years. We have become very depended on it. What are the problems arising from our dependency?

Writing

EDLP classes

UNIT 5

Developing Advanced Skills in Spreadsheet

AIM:

- To manipulate data in a spreadsheet program.

LEARNING OBJECTIVES:

By the end of this unit, the pupils will be able to:

- Sort cell content according to one or two elements.
- Format data (number, date currency and percentage).
- Work out simple calculations.
- Write simple formulae.
- Replicate formula.
- Use SUM() and AVERAGE() functions.
- Use minimum, maximum and count functions.
- Create and edit charts.

Spreadsheet

Microsoft Excel has evolved just like the rest of the world.

It can handle a lot more cells than it did in its early days.

Excel had a limit of 16,384 rows all the way up until Excel 95.

Excel 97 through 2003 could handle 65,536 rows and 256 columns.

Since Excel 2007, the program has offered 1,048,576 rows and 16,384 columns. That's over 17 billion cells!

You have already worked on spreadsheet in the previous grades.

Now let's learn how to format worksheets and use formulas.

SORTING CELL CONTENTS

In Excel, data can be arranged in ascending or descending order so that it is easier to analyze.

ACTIVITY 1

Activity 1: Sorting of data

- Step 1: Open Excel 2019.
- Step 2: Type the following data:

	A	B	C	D	E
1	Final marks for Grade 5				
2	Name	Gender	English (marks)	French (marks)	Mathematics (marks)
3	Vincent				
4	Priya				
5	Lucas				
6	Shayna				
7	Didier				

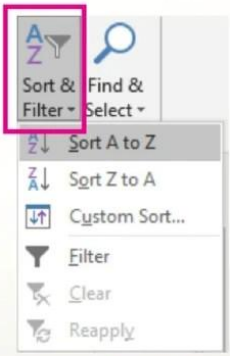
SORTING CELL CONTENTS

ACTIVITY 1

- Step 3: Select cells A3 to cell A7 as shown below:

	A	B	C	D	E
1	Final marks for Grade 5				
2	Name	Gender	English (marks)	French (marks)	Mathematics (marks)
3	Vincent				
4	Priya				
5	Lucas				
6	Shayna				
7	Didier				

- Step 4: In the **Home ribbon**, click on the Sort & Filter option.



- Step 5: In the menu, click **Sort A to Z** to arrange the Name column in ascending order.

SORTING CELL CONTENTS

ACTIVITY 1

- The Name column is rearranged in ascending order as shown below:

	A	B
1		Fir
2	Name	Gender	English
3	Vincent	
4	Priya	
5	Lucas	
6	Shayna	

Before

	A	B	C
1			Final ma
2	Name	Gender	English (mark
3	Didier	Boy	58
4	Lucas	Boy	49
5	Priya	Girl	77
6	Shayna	Girl	85
7	Vincent	Boy	64

After

- Step 6: Use steps 3 to 5 to sort the data in descending order **(Sort Z to A)**.

CUSTOM SORT

In Excel, data can be sorted by other elements of the table like Gender (Column B) according to boy or girl or English marks (Column C) to sort from largest to smallest.

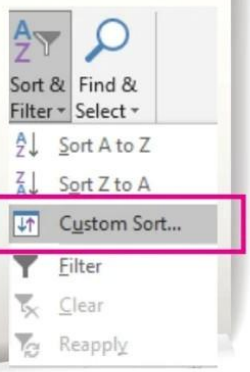
ACTIVITY 2

Activity 2: Sorting according to two elements

- Step 1: Enter the following in the table as shown below:

	A	B	C	D	E
1	Final marks for Grade 5				
2	Name	Gender	English (marks)	French (marks)	Mathematics (marks)
3	Didier	Boy	58		
4	Lucas	Boy	49		
5	Priya	Girl	77		
6	Shayna	Girl	85		
7	Vincent	Boy	64		

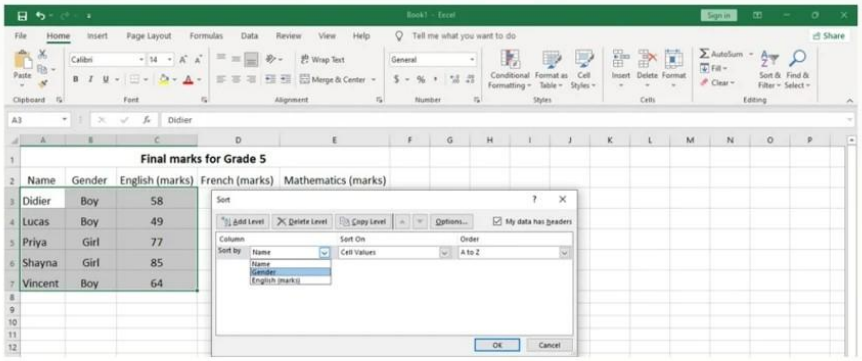
- Step 2: Select cells **A3** to cell **C7** again in the table.
- Step 3: In the **Home ribbon,** click the **Sort & Filter** option.
- Step 4: In the menu, click **Custom Sort.**



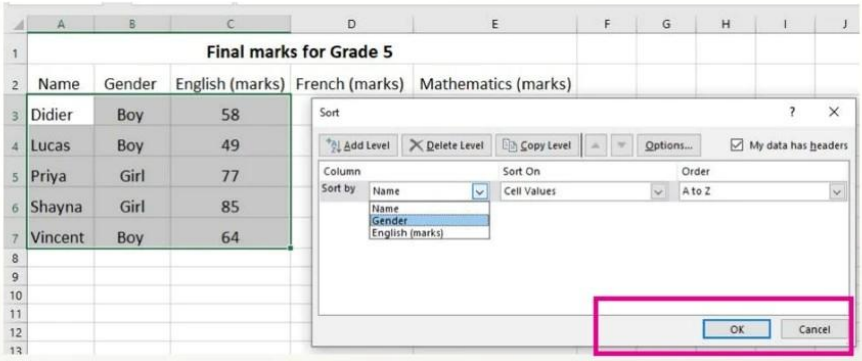
CUSTOM SORT

ACTIVITY 2

- The Sort window will open.



- Step 5: Under the **Sort** by option, choose **Gender** and click **OK**.



CUSTOM SORT

ACTIVITY 2

- The resulting table is sorted by gender.

1			Final marks
2	Name	Gender	English (marks)
3	Didier	Boy	58
4	Lucas	Boy	49
5	Priya	Girl	77
6	Shayna	Girl	85
7	Vincent	Boy	64

Before

	A	B	C
1			Final marks
2	Name	Gender	English (marks)
3	Didier	Boy	58
4	Lucas	Boy	49
5	Vincent	Boy	64
6	Priya	Girl	77
7	Shayna	Girl	85

After

FORMATTING: DATE AND PERCENTAGE

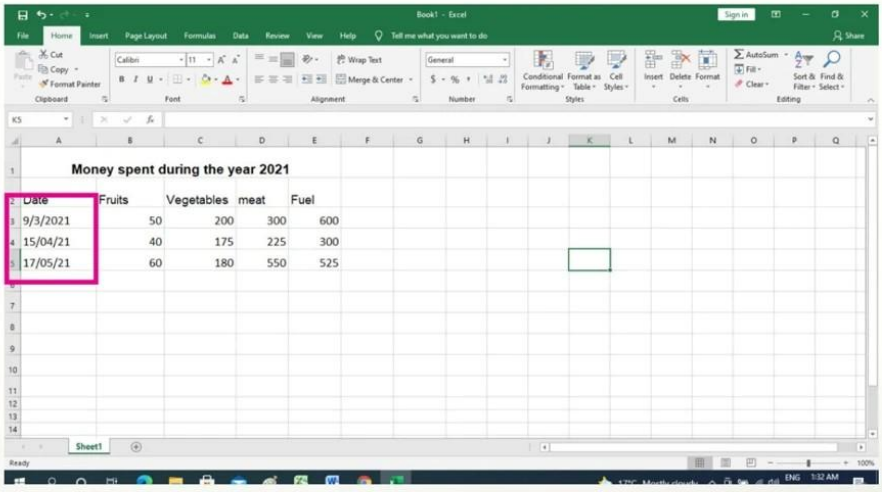
We can display data in different ways in a Spreadsheet.

Complete the following activities to format the cells containing dates and percentage.

ACTIVITY 3

Activity 3: Format Date

- Step 1: Open Excel 2019.
- Step 2: Type the following data:



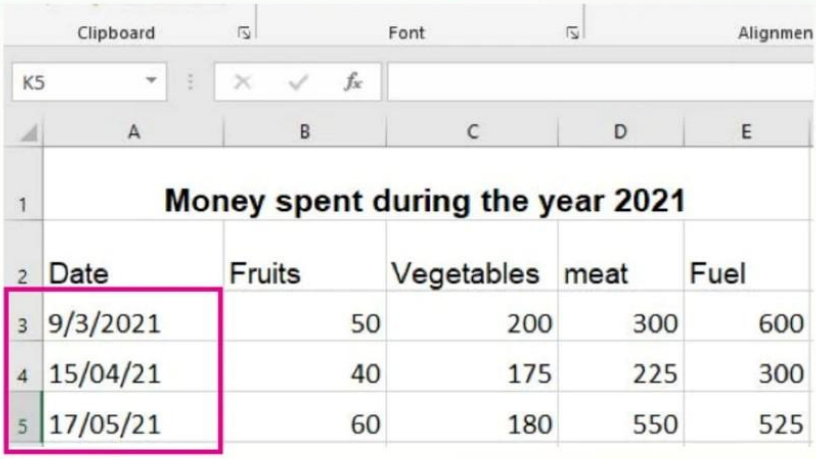
Money spent during the year 2021

Date	Fruits	Vegetables	meat	Fuel
9/3/2021	50	200	300	600
15/04/21	40	175	225	300
17/05/21	60	180	550	525

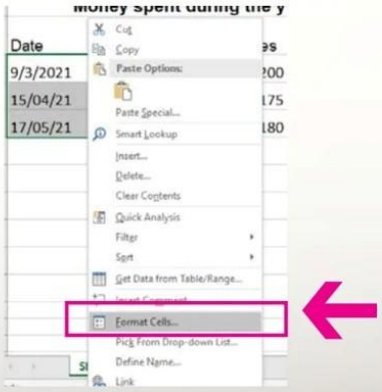
FORMATTING: DATE AND PERCENTAGE

ACTIVITY 3

- Step 3: Select the cells A3 to A5.



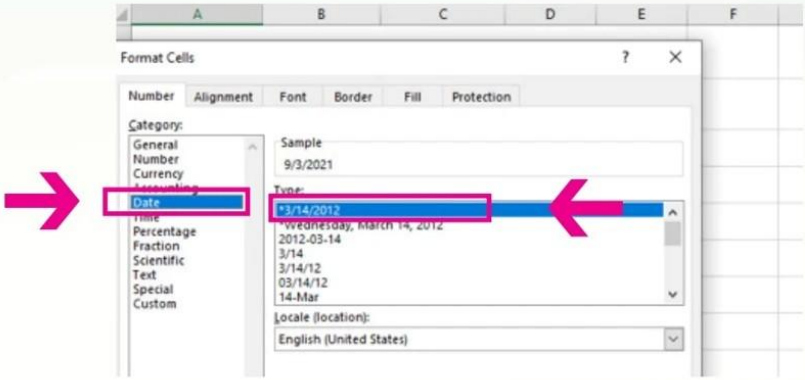
- Step 4: Right click on the selected cells and click on **Format Cells**.



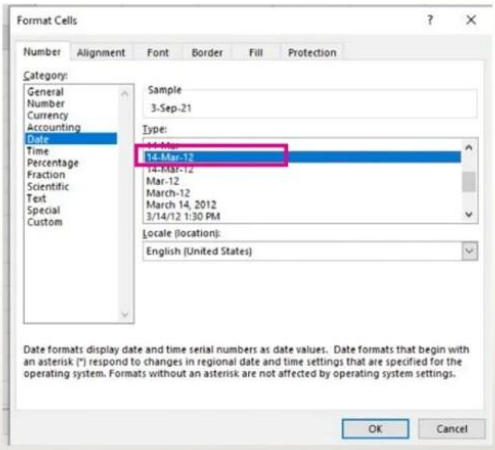
FORMATTING: DATE AND PERCENTAGE

ACTIVITY 3

- Step 5: Click on **Date** and select the **Date Type**.



- Step 6: Select the following **Date Type** and click **OK.**



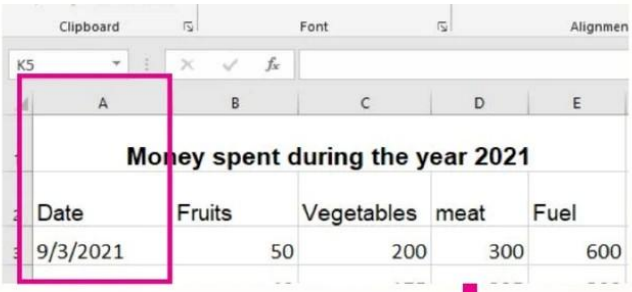
FORMATTING: DATE AND PERCENTAGE

ACTIVITY 3

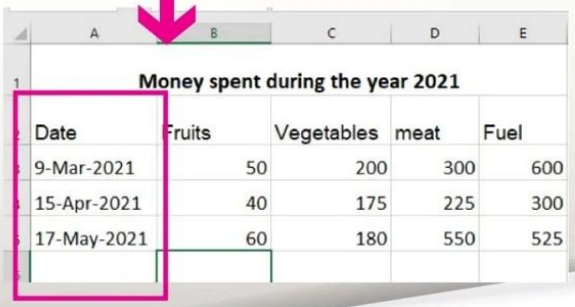
NOTE TO TEACHERS:

Explain to pupils that the date which appears in the Format Cells Dialog box is a sample using year 2012.

Before



After



FORMATTING: DATE AND PERCENTAGE

ACTIVITY 4

Activity 4: Format percentage

- Step 1: Name Column F as **% money spent.**

	A	B	C	D	E	F
1	Money spent during the year 2021					
2	Date	Fruits	Vegetables	meat	Fuel	% money spent

- Step 2: Select cells **F3 to F5.**

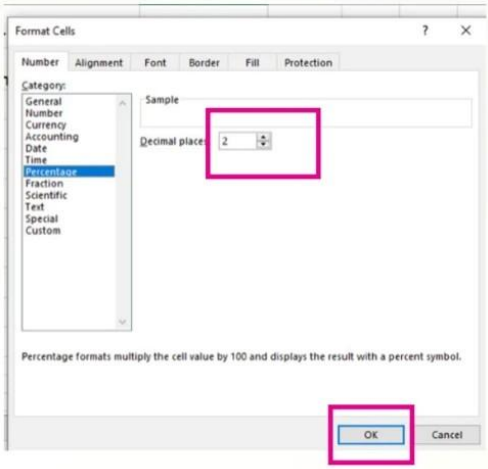
	A	B	C	D	E	F
1	Money spent during the year 2021					
2	Date	Fruits	Vegetables	meat	Fuel	% money spent
3	3-Sep-2021	50	200	300	600	
4	15/04/21	40	175	225	300	
5	17/05/21	60	180	550	525	

- Step 3: Right click on the selected cells and click on **Format Cells.**

FORMATTING: DATE AND PERCENTAGE

ACTIVITY 4

- Step 4: Click on **Percentage** and type 2 in the **Decimal place** textbox. Then click on **OK.**



- Step 5: Enter the following data in the **% money spent** column.

(i) Type 25 in cell F3

(ii) Type 15 in cell F4

(iii) Type 20 in cell F5

	A	B	C	D	E	F
1	Money spent during the year 2021					
2	Date	Fruits	Vegetables	meat	Fuel	% money spent
3	3-Sep-2021	50	200	300	600	25.00%
4	15/04/21	40	175	225	300	15.00%
5	17/05/21	60	180	550	525	20.00%

- The numbers will be written automatically to **2 decimal places** in the column '% money spent' as the cells have already been formatted to **Percentage**.

CALCULATIONS AND FORMULAE

Spreadsheet software can also be used to do calculations.

Computers use special symbols for addition, subtraction, multiplication and division.

	Symbols on keyboard
Addition	+
Subtraction	-
Multiplication	*
Division	/

MS Excel uses formulae to do calculations. **Every formula in MS Excel must start with the EQUAL "=" sign.**

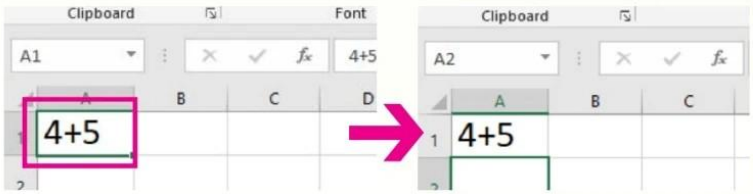
PERFORMING SIMPLE CALCULATION USING FORMULA

ACTIVITY 5

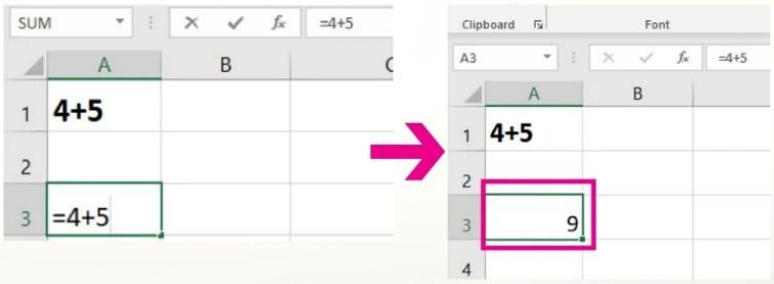
Activity 5: Performing simple calculation using formula

- Step 1: Open Excel.
- Step 2: Type 4+5 in cell A1 and press Enter.

The data inserted remains the same.



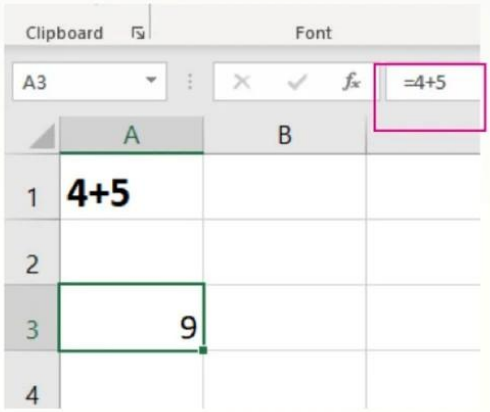
- Step 3: Now type =4+5 in cell A3 and Press Enter.
- The result is the sum of the two numbers.



PERFORMING SIMPLE CALCULATION USING FORMULA

ACTIVITY 5

- The result appears in the cell A3 and the formula bar will show the formula **=4+5**.



- **Observation:**

Please note that there is no space between numbers and equal to sign. =4+5

PERFORMING SIMPLE CALCULATION USING FORMULA

ACTIVITY 6

Activity 6: Perform the following simple calculations in Excel 2019.

a) 10 + 30

b) 7 – 4

c) 10 * 5

d) 24 / 2

USING CELL ADDRESS IN FORMULAE

A formula can use the cell address to get the data from a cell.

ACTIVITY 7

Activity 7: Calculations using formulae with cell addresses

- Step 1: Insert the following data in new worksheet.

H6

	A	B	C	D	E
1	Price list of stationeries				
2		Quantity	Price per unit	Cost price	
3	Red markers	6	5		
4	Blue markers	4	7		

- Step 2: Click cell **D3**.
- Step 3: Type =

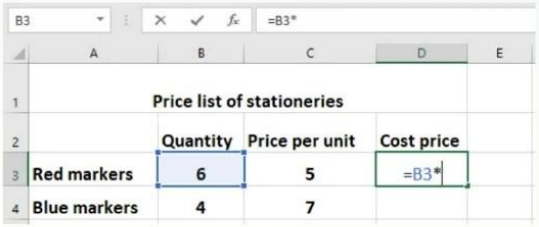
SUM

	A	B	C	D	E
1	Price list of stationeries				
2		Quantity	Price per unit	Cost price	
3	Red markers	6	5	=	
4	Blue markers	4	7		

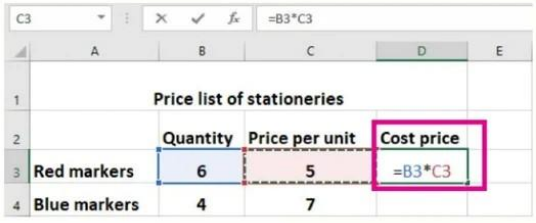
USING CELL ADDRESS IN FORMULAE

ACTIVITY 6

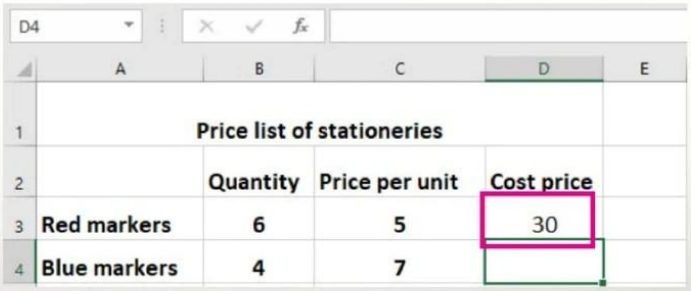
- Step 4: Click cell **B3**.
- Step 5: Type *****



- Step 6: Click cell **C3**.
- Step 7: Press **Enter.**



The result is the following:



USING CELL ADDRESS IN FORMULAE

ACTIVITY 6

- The formula used for the calculation is **=B3*C3.**
- Step 8: Using the same steps as above, calculate the cost price of **Blue markers**.
- Step 9: Save your file as Stationeries.

Please note that the formula for calculating cost price is:

Cost price = quantity * price per unit

FILLING FORMULA

The formula for cost price for:

- **Red marker is =B3 * C3**
- **Blue marker is =B4 * C4**

ACTIVITY 8

Activity 8: Adding more items to the list

- Step 1: Open **Stationeries** file.
- Step 2: Add the following data in rows 5 and 6 as shown below:

	A	B	C	D
1	Price list of stationeries			
2		Quantity	Price per unit	Cost price
3	Red markers	6	5	30
4	Blue markers	4	7	28
5	Green markers	3	6	
6	Black markers	4	8	

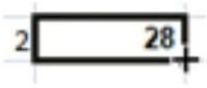
- Instead of writing the formula to calculate the cost price for all the items, we can fill the formula in cells **D5** and **D6**. This will copy the formula in the two cells.

FILLING FORMULA

ACTIVITY 9

Activity 9: Filling formula into adjacent cells

- Step 1: Click on cell **D4.**
- Step 2: Place the mouse pointer on the small square at the bottom-right of the cell.
- Step 3: The pointer changes from ✥ to ✚.



- Step 4: Drag the pointer to select cells **D5** and **D6.**
- Step 5: Release the mouse button.
- The result will look like this:

Cost price
30
28

	A	B	C	D
1	Price list of stationeries			
2		Quantity	Price per unit	Cost price
3	Red markers	6	5	30
4	Blue markers	4	7	28
5	Green markers	3	6	18
6	Black markers	4	8	32

- Step 6: Save your work.

USING SUM AND AVERAGE FUNCTIONS

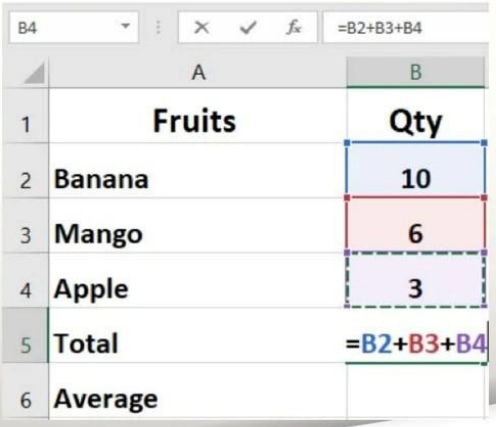
ACTIVITY 10

Activity 10: Calculating sum

- Step 1: Enter the following data in a blank worksheet as shown below:

	A	B
1	Fruits	Qty
2	Banana	10
3	Mango	6
4	Apple	3
5	Total	
6	Average	

- Step 2: You can use the following formula to calculate the total: **=B2+B3+B4**



USING SUM AND AVERAGE FUNCTIONS

ACTIVITY 10

- Step 3: The result is displayed in cell B5.

5	**Total**	**19**
6	**Average**	

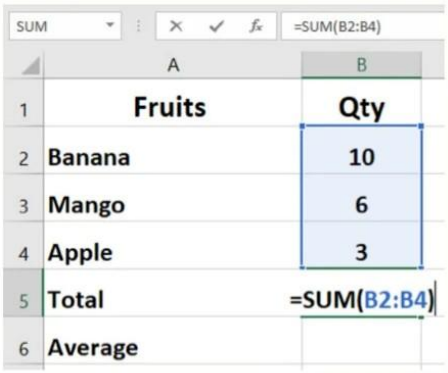
- Step 4: You can also use the **SUM** function for the same activity.

USING SUM AND AVERAGE FUNCTIONS

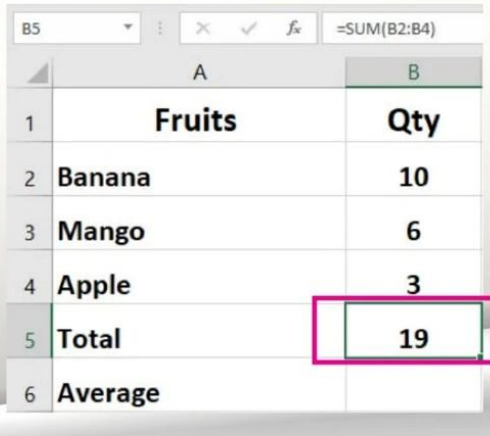
ACTIVITY 11

Activity 11: Calculating the total using SUM function

- Step 1: In cell B5, type **=SUM(**
- Step 2: Select cells **B2** to **B4.**
- Step 3: Close the bracket.



- Step 4: Press enter. The result is



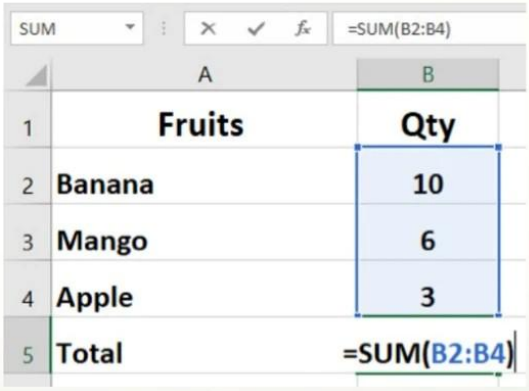
CALCULATING AVERAGE USING THE AVERAGE FUNCTION

ACTIVITY 12

Activity 12: Calculating average using the AVERAGE function

- Step 1: In cell **B6**, type **=AVERAGE(**

- Step 2: Select cells **B2** to **B4**.
- Step 3: Close the bracket.



CALCULATING AVERAGE USING THE AVERAGE FUNCTION

ACTIVITY 12

- Step 4: Press enter. The result is displayed in cell **B6**:

B7

	A	B
1	**Fruits**	**Qty**
2	**Banana**	**10**
3	**Mango**	**6**
4	**Apple**	**3**
5	**Total**	**19**
6	**Average**	**6.333333**
7		

MORE PRACTICE WITH SUM AND AVERAGE FUNCTIONS

ACTIVITY 13

Activity 13: More practice with Sum and Average functions

- Step 1: Open Excel 2019.
- Step 2: Enter the following data in Excel 2019:

	A	B	C	D	E
1	Marks for Grade5 Red pupils				
2	Name of pupil	Mathematics	English	French	Total
3	Lucas	70	52	85	
4	Sunil	57	79	65	
5	Lana	89	78	92	
6	Brandon	48	56	60	
7	Shania	74	88	80	

- Step 3: Adjust the width of Column A to fit the data.
- Step 4: Change the colour of the worksheet to Red and rename it Grade 5.
- Step 5: In cell E3, use the SUM ( ) function to calculate the sum.
- Step 6: Replicate the formula to cells **E4: E7.**
- Step 7: Calculate the average marks in cell **F3** and replicate the formula to cell **F7.**
- Step 8: Save your work on the desktop as "Sum".

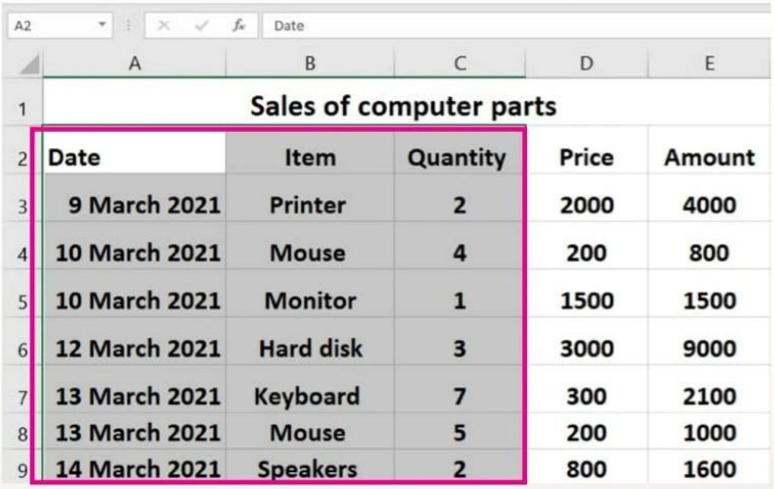
COLUMN CHART AND PIE CHART

We can represent data in a worksheet using Column charts and Pie charts.

ACTIVITY 14

Activity 14: Inserting a Column chart

- Step 1: Type the following data in Excel.
- Step 2: Select the cells **A2** to **C9.**



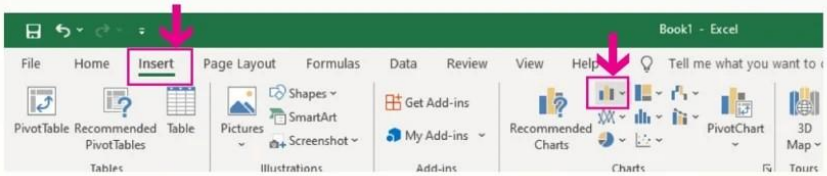
A2 | Date

	A	B	C	D	E
1	Sales of computer parts				
2	Date	Item	Quantity	Price	Amount
3	9 March 2021	Printer	2	2000	4000
4	10 March 2021	Mouse	4	200	800
5	10 March 2021	Monitor	1	1500	1500
6	12 March 2021	Hard disk	3	3000	9000
7	13 March 2021	Keyboard	7	300	2100
8	13 March 2021	Mouse	5	200	1000
9	14 March 2021	Speakers	2	800	1600

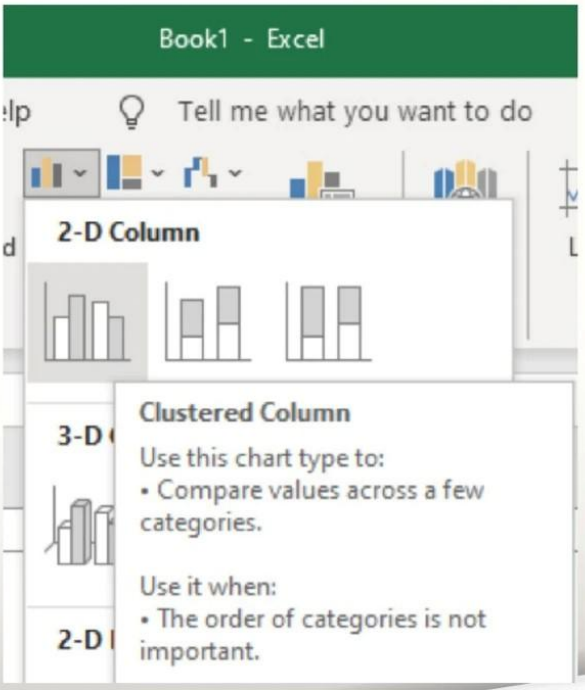
COLUMN CHART AND PIE CHART

ACTIVITY 14

- Step 3: Click on Insert tab and then click on insert Column or bar chart icon.



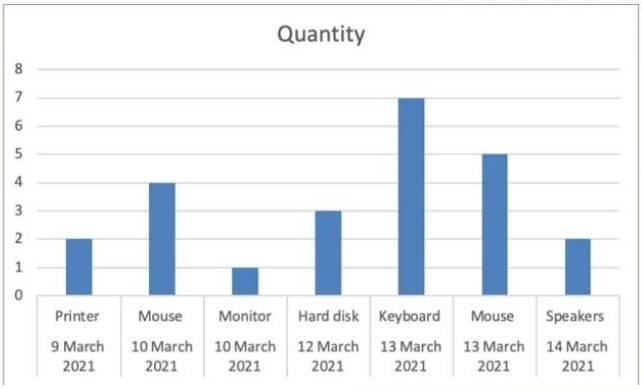
- Step 4: Click on the first 2-D column chart.



COLUMN CHART AND PIE CHART

ACTIVITY 14

- Step 5: The following Column Chart will appear.



- Step 6: Save your work as **Sales** on the desktop.

You can change the layout of the column chart by selecting other charts in the insert column or bar chart icon.

INSERTING A PIE CHART

ACTIVITY 15

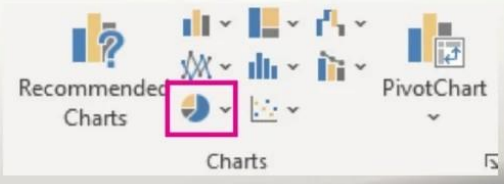
Activity 15: Inserting a Pie chart

- Step 1: Open the Sales workbook on the Desktop.
- Step 2: Select the Cells B2 to C9.

	A	B	C	D	E
1	Sales of computer parts				
2	Date	Item	Quantity	Price	Amount
3	9 March 2021	Printer	2	2000	4000
4	10 March 2021	Mouse	4	200	800
5	10 March 2021	Monitor	1	1500	1500
6	12 March 2021	Hard disk	3	3000	9000
7	13 March 2021	Keyboard	7	300	2100
8	13 March 2021	Mouse	5	200	1000
9	14 March 2021	Speakers	2	800	1600

- Step 3: Click on **Insert tab.**

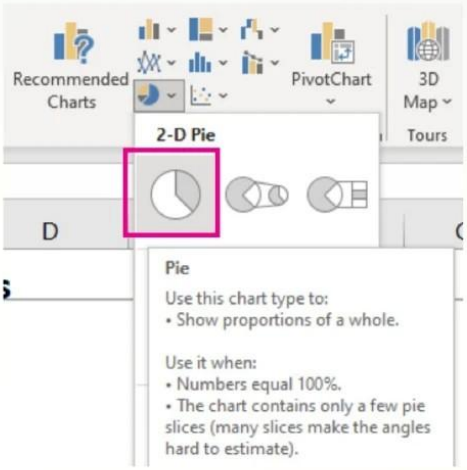
- Step 4: Click on the **Pie Chart** icon.



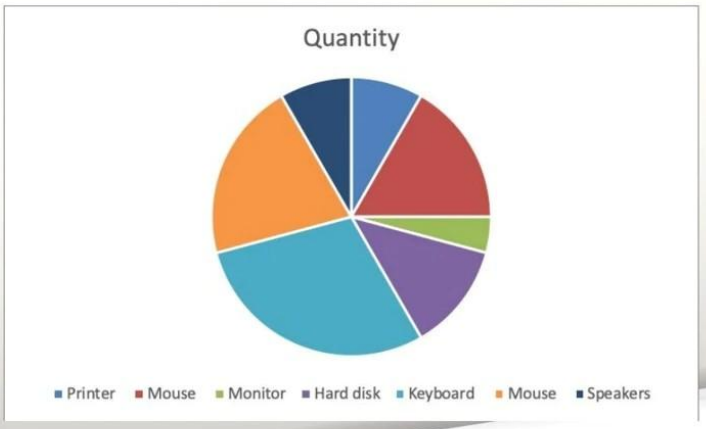
INSERTING A PIE CHART

ACTIVITY 15

- Step 5: Click on the first **2-D Pie.**



- Step 6: The following Pie chart will appear:



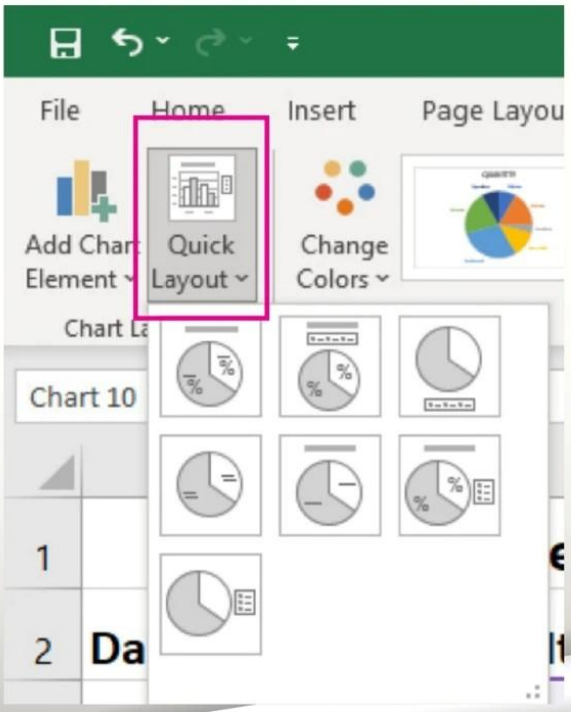
CHANGING CHART LAYOUT

ACTIVITY 16

Activity 16: Changing chart layout

- Step 1: Select the chart to change layout.
- Step 2: Click on the **Chart design** tab.

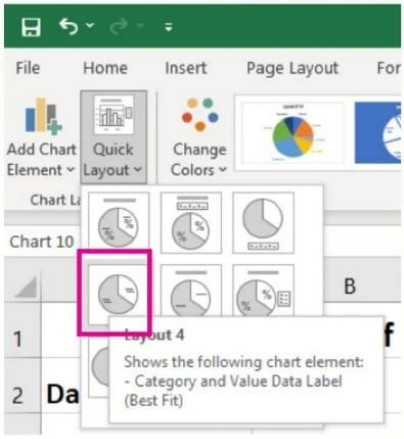
- Step 3: Click on the **Quick Layou**t icon.



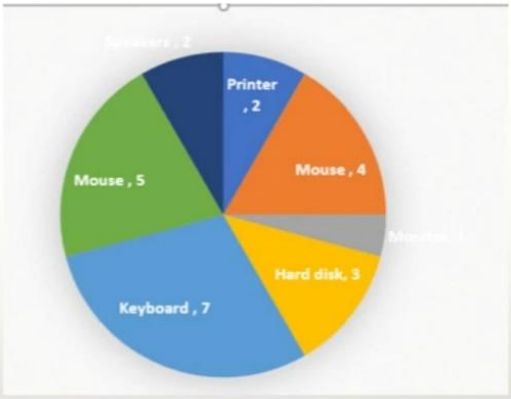
CHANGING CHART LAYOUT

ACTIVITY 16

- Step 4: Click on **Layout 4.**



- Step 5: The following Pie Chart will appear:



- Step 6: Save your work.

SPREADSHEET – DATA MANIPULATION

When you change the data in cells B3, B4, C3 and C4, the appearance of the Pie Chart also will change. You can observe the change by following the steps below:

ACTIVITY 17

Activity 17: Manipulating data to observe.

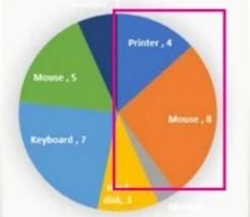
- Step 1: Open the Sales workbook on the Desktop.
- Step 2: Type **2** instead of **5** in the cell **C3.**
- Step 3: Type **8** instead of **3** in the cell **C4.**
- Step 4: Observe the change:

Before

	A	B	C
1		Sales of computer parts	
2	Date	Item	Quantity
3	9 March 2021	Printer	2
4	10 March 2021	Mouse	4
5	10 March 2021	Monitor	1
6	12 March 2021	Hard disk	3
7	13 March 2021	Keyboard	7
8	13 March 2021	Mouse	5
9	14 March 2021	Speakers	2

After

	A	B	C
1		Sales of computer parts	
2	Date	Item	Quantity
3	9 March 2021	Printer	4
4	10 March 2021	Mouse	8
5	10 March 2021	Monitor	1
6	12 March 2021	Hard disk	3
7	13 March 2021	Keyboard	7
8	13 March 2021	Mouse	5
9	14 March 2021	Speakers	2



- Step 5: Save your work.

UNIT 6

Working with Advanced Animation Features

AIM:

- To use advanced animations features in PowerPoint 2019.

LEARNING OBJECTIVES:

By the end of this unit, pupils should be able to:

- Create a presentation using pictures and advanced animations.
- Make use of emphasis.
- Insert Header and Footer to a presentation.
- Insert hyperlinks.

Snap Recap

In the previous Grades, you have learnt to design a presentation using PowerPoint 2019. In this unit, we will introduce you to advanced features.

Did you know ?

Approximately 35 million PowerPoint presentations are designed everyday by people across the world.

WORKING WITH ADVANCED ANIMATION FEATURES

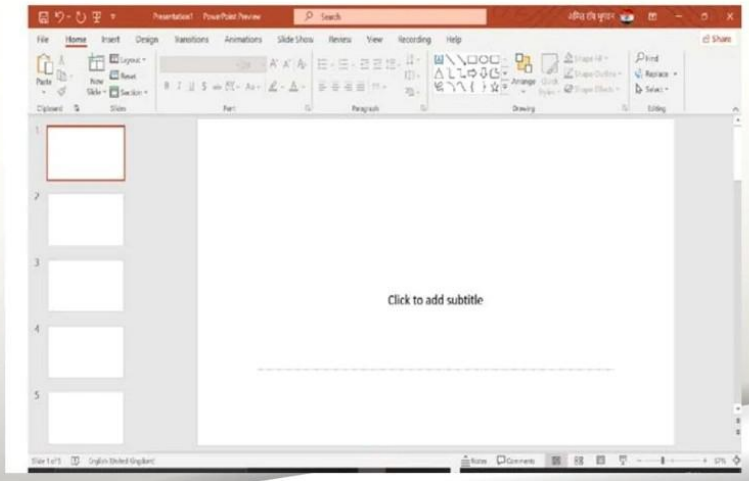
ACTIVITY 1

NOTE TO TEACHERS:

Teachers should download transport pictures and insert it in the Pictures folder.

Activity 1: Working with advanced animation features

- Step 1: Open PowerPoint 2019.
- Step 2: Open a blank presentation.
- Step 3: Insert 5 slides to your presentation.

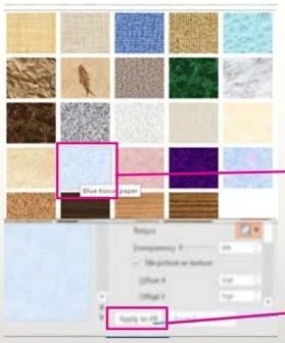


WORKING WITH ADVANCED ANIMATION FEATURES

ACTIVITY 1

- Step 4: In the first slide, add the title **"Transport in Mauritius".**
- Step 5: In the subtitle box of the first slide, add your name and class.
- Step 6: On the second slide, format the background to texture **Blue Tissue Paper** as shown in picture below:

- Then click on Apply to all.



WORKING WITH ADVANCED ANIMATION FEATURES

ACTIVITY 1

- Step 7: Add the title The **Metro.**
- Step 8: Type the text below as shown in the picture:
- Step 9: Add The **Metro** picture from Pictures folder.

- Step 10: On the Third Slide:

Type the Title: **Double Deck Bus**
Type the text: **The return of the double deck bus after 54 years was re-introduced by the Rose-Hill Transport, RHT route.**

WORKING WITH ADVANCED ANIMATION FEATURES

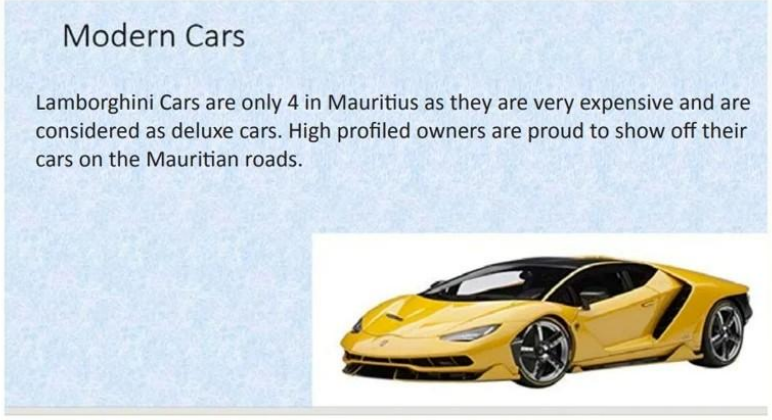
ACTIVITY 1

- Step 11: Add picture of Double Deck Bus from **Pictures** Folder.

- Step 12: On the fourth slide, add the title of **Modern Cars.**
- Step 13: Add a car picture from the Pictures folder.
- Step 14: Type the text as in the picture below:

WORKING WITH ADVANCED ANIMATION FEATURES

ACTIVITY 1



- Step 15: On the fifth slide, type the following text and insert a motorcycle picture from the pictures folder as shown below:

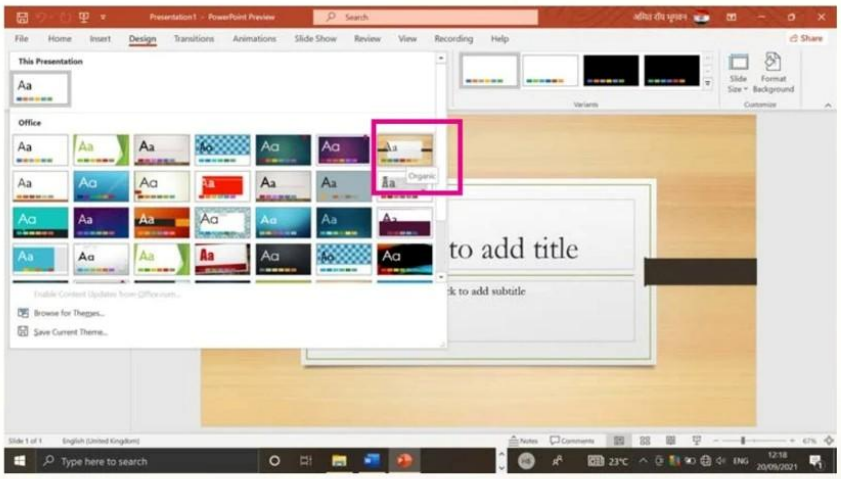
- Step 16: Save the file as Transport on your desktop.

ADDING THEMES

ACTIVITY 2

Activity 2: Adding Themes

- Step 1: Click on the ribbon on the design tab and select "Organic" as the theme to be used.
- You can also choose a theme of your choice to apply to your presentation.

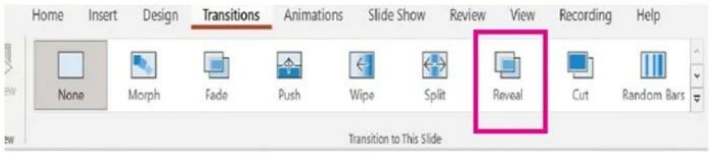


ADDING SLIDE TRANSITIONS

ACTIVITY 2

Adding Slide transitions

- Step 2: On the ribbon, click on the transitions tab.
- Don't forget to click on the first slide so that it would be active.



- Step 3: Click on the transition "Split".
- Step 4: Save your file again and close it.

NOTE TO TEACHERS:

Help the pupils to select the transitions and simple animations for the slides as prerequisites for the next activity.

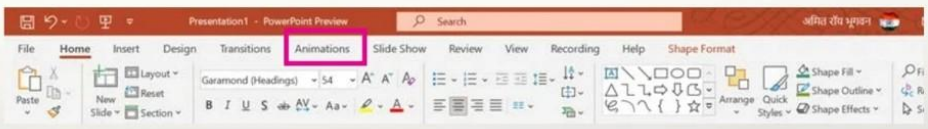
ADDING ADVANCED ANIMATIONS TO SLIDES

ACTIVITY 3

Activity 3 Adding Advanced animations to Slides

- Step 1: Open Transport file.
- Step 2: On the first slide, click on the title.
- It will appear like this:

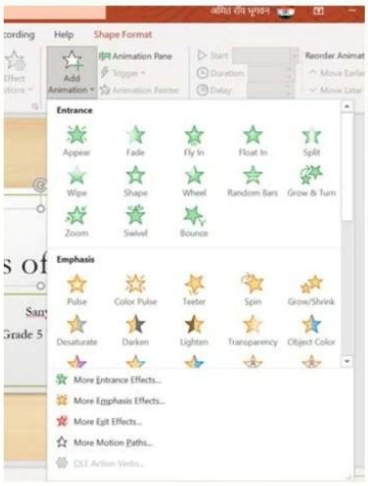
- Step 3: On the animations tab, select 'add animation':



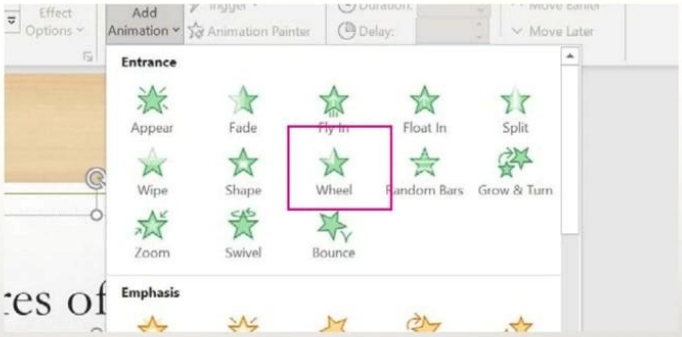
ADDING ADVANCED ANIMATIONS TO SLIDES

ACTIVITY 3

- It will appear like this:



- Step 4: Select the Wheel Entrance animation.

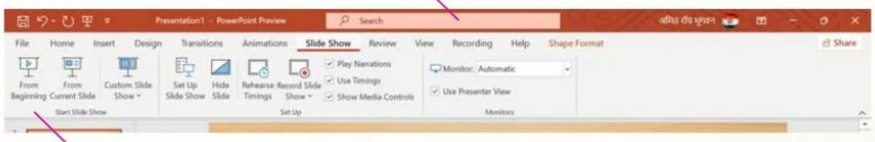


ADDING ADVANCED ANIMATIONS TO SLIDES

ACTIVITY 3

- Step 5: Choose the subtitle box where your name appears.
- Step 6: Add animation entrance to it.
- Step 7: Add Spin Emphasis animation to enhance your name.

- Step 8: Run the slideshow by pressing F5 button on your keyboard or click on slideshow tab as shown in picture below:



Click on "From Beginning"

ADDING ADVANCED ANIMATIONS TO SLIDES

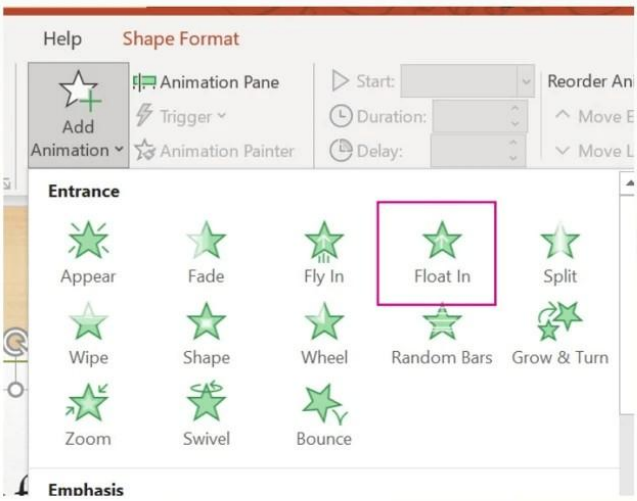
ACTIVITY 3

- Step 9: Then add an exit animation.

- Step 10: Click on the second slide now and add animation entrance to the title.
- Step 11: Add animation to the entrance of the picture as shown below:

ADDING ADVANCED ANIMATIONS TO SLIDES

ACTIVITY 3



- Step 12: Now add animations to other slides by yourself.
- Step 13: Save the file.
- Step 14: Run a final slideshow by pressing on F5 when all custom animations have been done.
- Step 15: Close your file.

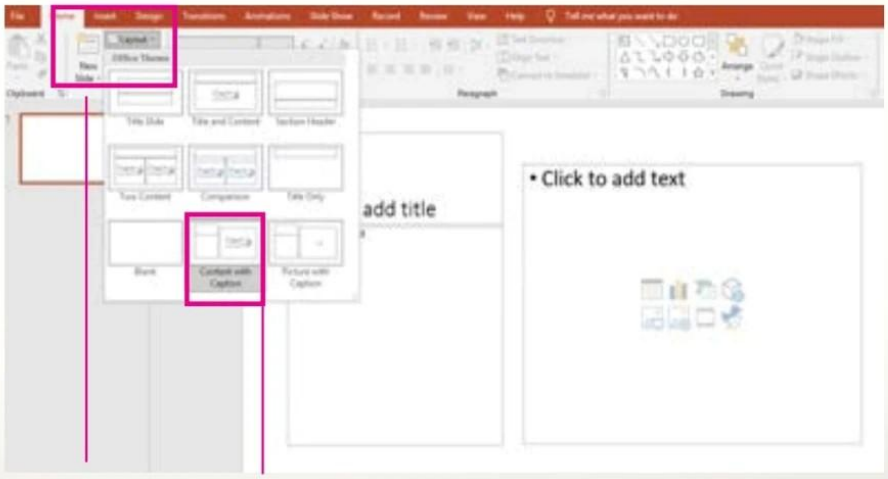
USING HYPERLINK

Hyperlink is an electronic link that allows the user to move directly from a place to another specific text or place in the document.

ACTIVITY 4

Activity 5: Using Hyperlink

- Step 1: Open a new PowerPoint presentation.
- Step 2: Using the ribbon as below, change the layout of the slides to content with caption layout.



Click on layout on the ribbon

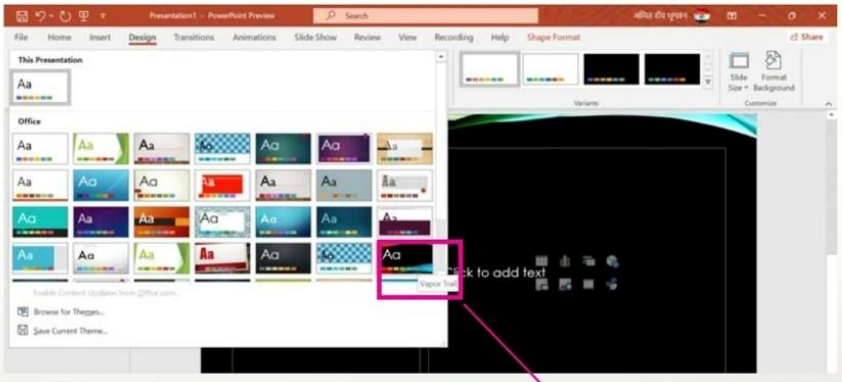
Select content with caption

ADDING ADVANCED ANIMATIONS TO SLIDES

ACTIVITY 4

- The slide should appear like this:

- Step 3: Click on the design tab and choose the following theme to work with:

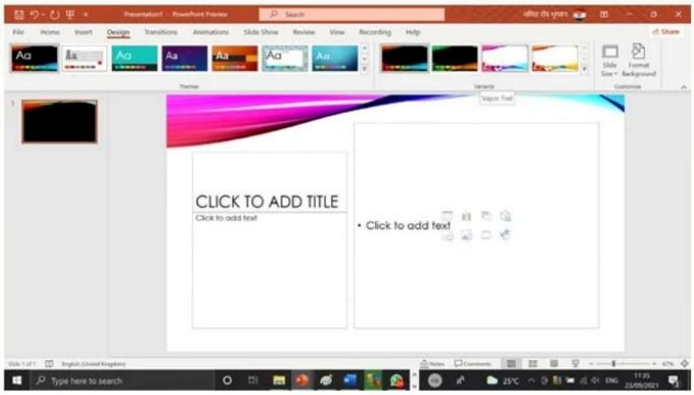


Select Vapor Trail

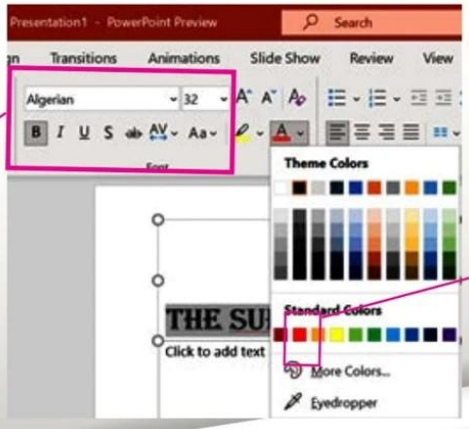
ADDING ADVANCED ANIMATIONS TO SLIDES

ACTIVITY 4

- It will look like this:



- Step 4: On the first slide, click to add title "The Superheroes".
- Step 5: Select the text and format it to "Algerian Font" and to red colour font.



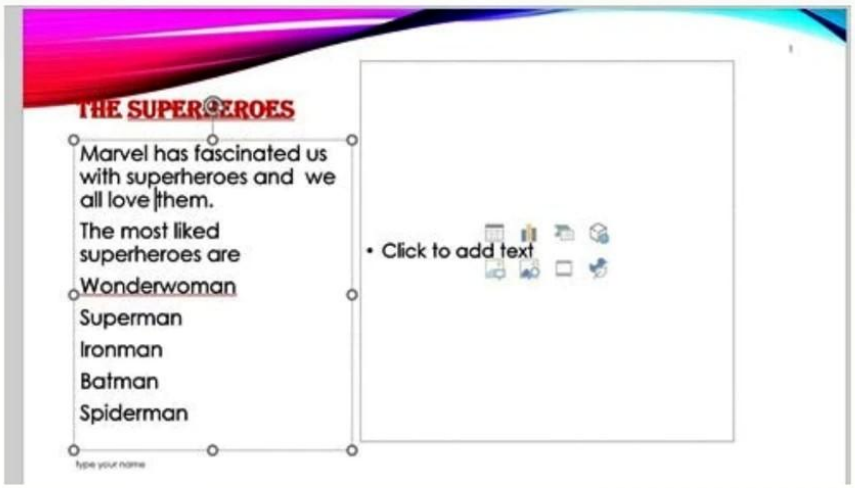
Choose Algerian font and put it bold

Red colour for the font

ADDING ADVANCED ANIMATIONS TO SLIDES

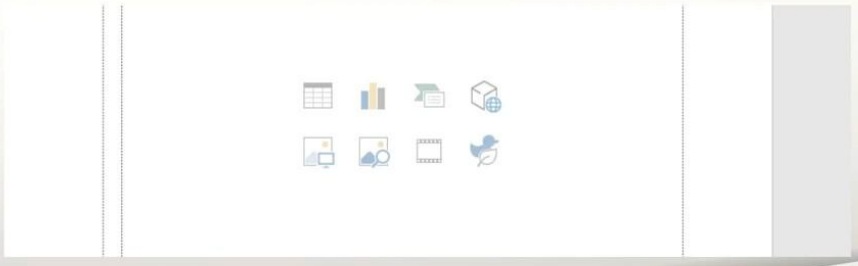
ACTIVITY 4

- Step 6: Click on the left box to add the following text:



- Step 7: On the first slide itself, add pictures using the icon.

Or simply click on insert tab to add pictures from the pictures folder.



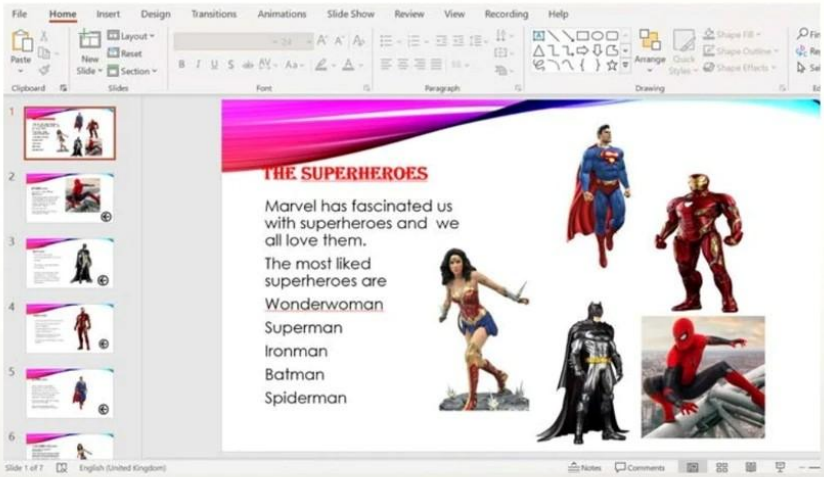
ADDING ADVANCED ANIMATIONS TO SLIDES

ACTIVITY 4

NOTE TO TEACHERS:

Download superheroes pictures and add it in the Pictures folder.

- Step 8: The first slide will appear like this:



- Step 9: Save your file as "The SuperHeroes" and your name next to it.

ADDING ADVANCED ANIMATIONS TO SLIDES

ACTIVITY 4

- Step 10: Insert six new slides to the presentation.
- Step 11: Slides 2 to 6 will include a picture like this at the right corner button

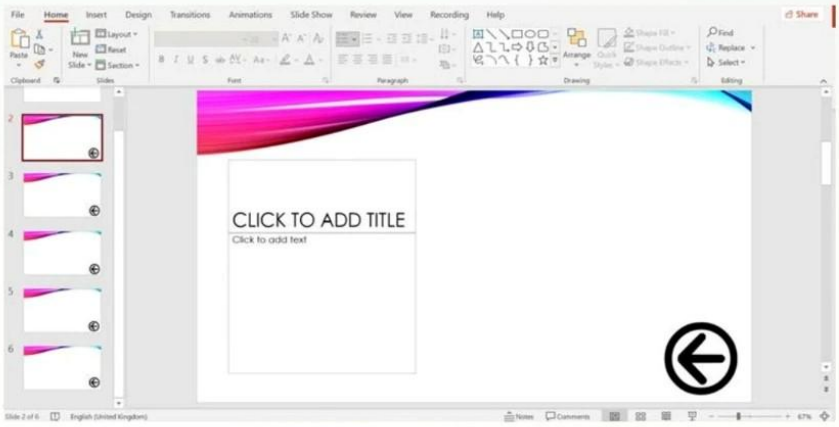
NOTE TO TEACHERS:

Ensure that an arrow symbol like this is found in my pictures or you can as well guide the pupil to insert one from shapes.

ADDING ADVANCED ANIMATIONS TO SLIDES

ACTIVITY 4

- The Slides will now look like this:

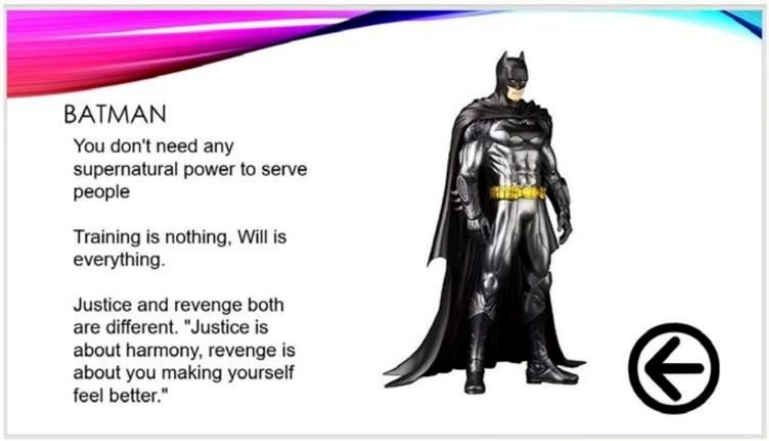


- Slide 2: On slide 2, insert the picture of Spiderman. Type the text as in the picture.

ADDING ADVANCED ANIMATIONS TO SLIDES

ACTIVITY 4

- Slide 3: On slide 3, insert the picture of Batman. Type the text as in the picture.

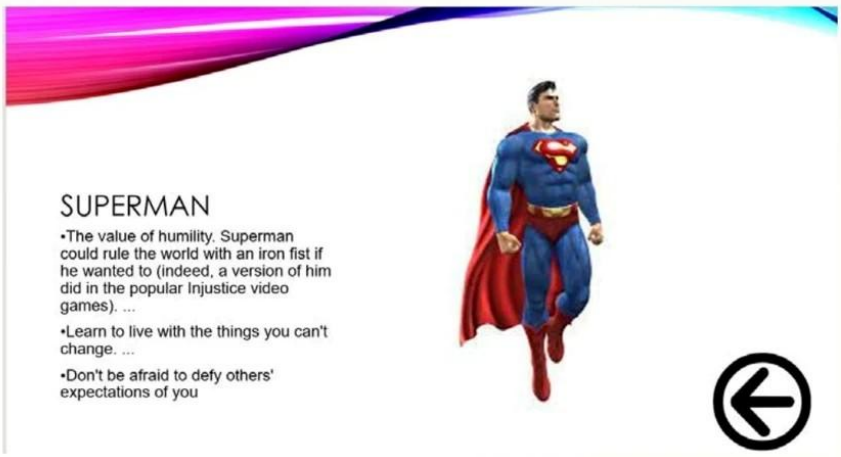


- Slide 4: On slide 4, insert the picture of Ironman. Type the text as in the picture.

ADDING ADVANCED ANIMATIONS TO SLIDES

ACTIVITY 4

- Slide 5 : On Slide 5, insert the picture of Superman and type as per picture below:



- Step 13: Save your file.

ADDING THE HYPERLINKS

ACTIVITY 5

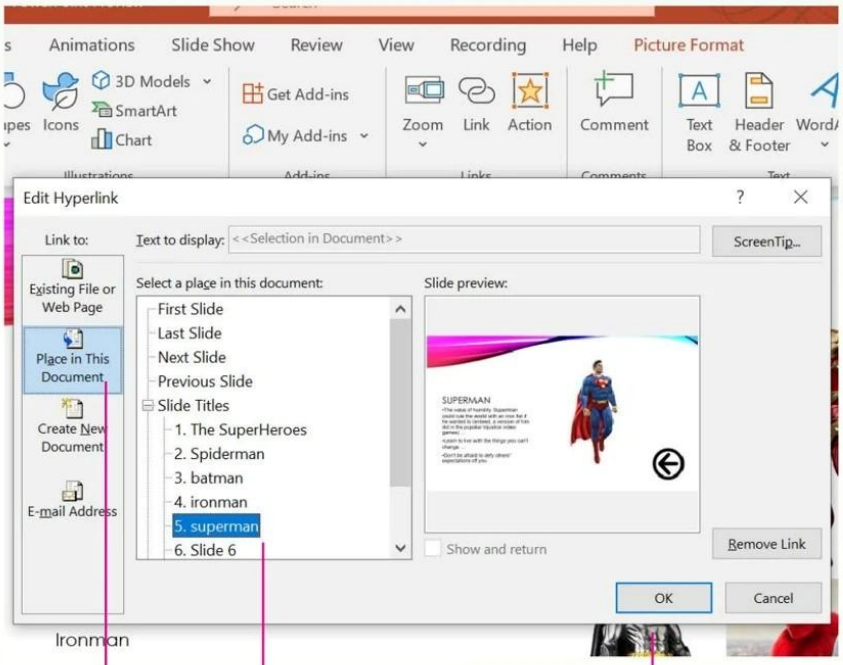
Activity 5: Adding the hyperlinks

- Step 1: Open Transport file.
- Step 2: Select the first slide first .
- Click on the Superman's picture in Slide 1, it should appear like this:

- Step 3: Click on the Insert tab on the ribbon.
- Step 4: Click on the link .

ADDING THE HYPERLINKS

ACTIVITY 5



Step 1: select Place in this document.

Step 2: Select slide 5 where we entered information.

Step 3 : Click OK.

- Step 5: Insert links for all the pictures on Slide 1.

ADDING THE HYPERLINKS

ACTIVITY 5

- Step 6: Click on the next Superhero, IRONMAN picture.

- Step 7: On the insert tab again, select the link button.

- Step 8: Hyperlink it to which slide?

Answer: _____

- Step 9: Run a slideshow by pressing F5 , observe what happens when you click on one superhero icon.

ADDING THE HYPERLINKS

EXTRA CHALLENGE

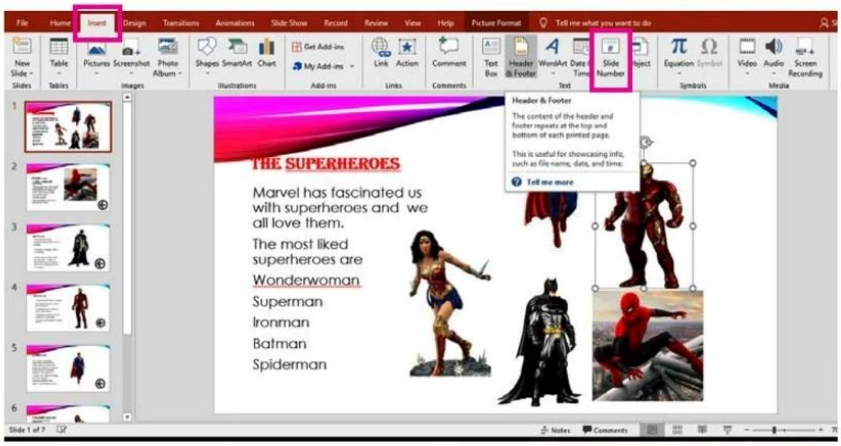
- **Add a hyperlink to all the Arrows in slides 2 to 6 so that it comes back to Slide 1.**

ADDING FOOTER AND SLIDE NUMBER TO SLIDES

ACTIVITY 6

Activity 6: Adding footer and slide number to slides

- Step 1: Open Superheroes file.
- Step 2: Click on the first slide.
- Step 3: On the ribbon, click on insert tab.

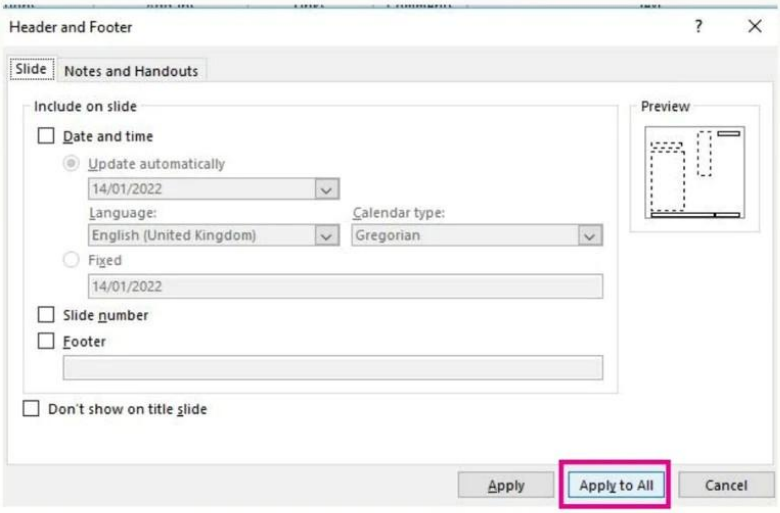


- Step 4: Click on Header and Footer as in the picture above.

ADDING FOOTER AND SLIDE NUMBER TO SLIDES

ACTIVITY 6

- Step 5: This will appear, fill it like below and click on Apply to all.



- Step 6: Run the presentation by typing F5 on the keyboard .
- Step 7: Save and close the file.

ADDING THE HYPERLINKS

EXTRA CHALLENGE

1. Open a new Presentation.
2. On the first slide ype Flag of Mauritius in the title box.
3. Add a blank layout slide to insert shapes as below with the colors of the Mauritian fla .

4. On the third slide, add Title box: Green
   Subtitle: Green represents our environment and agriculture.

5. On the fourth slide, add Title box : Blue.
   Subtitle: Blue represents our blue ocean which surrounds our island.

ADDING THE HYPERLINKS

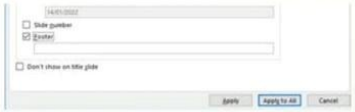
EXTRA CHALLENGE

6..On the fi th slide, add Title Box: Yellow.
Subtitle: Yellow represents Sun and Sand.

7. On the sixth slide, add Title box: Red
Subtitle: Red represents our ancestors' hardships for independence.

8. Add header and footer from insert tab on the ribbon.

9. Add footer text only:



10. Add animations of your choice to the first slide title ox:
    a. Entrance
    b. Exit

11. Add hyperlink to each color of your flag on slide 2 to their respective slide definition .

UNIT 7

Working with Emails

AIM:

- To introduce pupils to email.

LEARNING OBJECTIVES:

By the end of this unit, pupils should be able to:

- Show an awareness of Internet and Email safety.
- Explain what is an email.
- Open an email.
- Compose and send email.
- Send to multiple recipients.
- Reply to an email.
- Forward an email.
- Send an email with attachments.
- Open an email attachment.

INTERNET SAFETY FOR KIDS

1. Be polite and show respect when communicating with others online.
2. Never give out your personal information such as your full name , phone number and e-mail address.
3. Visit only those websites that your teacher tells you.
4. Report any unpleasant messages or inappropriate websites to your teacher and parents.

EMAIL SAFETY FOR KIDS

1. Never give your personal information.
2. Never reply to unpleasant emails .
3. Change your password regurlary.
4. Always log out from your email when you have finished.
5. Never share your password with anyone.

Snap Recap

You have already been introduced to using Internet in the previous grades.

The Internet is a system of connecting computers together .

It enables communication through chats or emails for instance.

EMAILS

Electronic Mail commonly known as email is a means to communicate with others using the internet.

Email service providers allow users to work with emails.

Some examples of email service providers are:

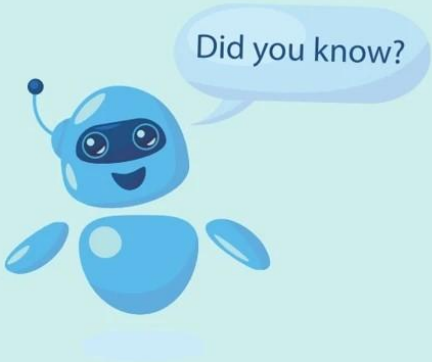
Gmail	Yahoo Mail	Hotmail

EMAILS

Email is one of the most popular uses of the Internet.

It is a fast and convenient way to communicate with each other.

You can send a message to anyone with an email address . The email will arrive almost instantly in the recipient's email box .



Did you know?

- The first email was sent in 1971.
- The creator of email is called Ray Tomlison.
- Almost 2.8 million emails are sent per second around the world.
- People spend 5.4 hours per day to check their emails.
- People check their emails about 15 times a day.

ADVANTAGES OF EMAILS

Emails have the following advantages.

Emails

1. can be sent and received instantly.
2. can be sent at any time.
3. can be sent to one or several persons at once.
4. can send bulk data at once.
5. is green and environment friend. (no paper needed)

LIMITATIONS OF EMAILS

1. Anyone can create an email account by giving false personal details.
2. You can receive unwanted mails.
3. There are possibilities that someone can intercept or read your email.

CREATING AN EMAIL ACCOUNT

ACTIVITY 1

Activity 1: Creating an Email account

Complete the following activities to work with email.

NOTE TO TEACHERS:

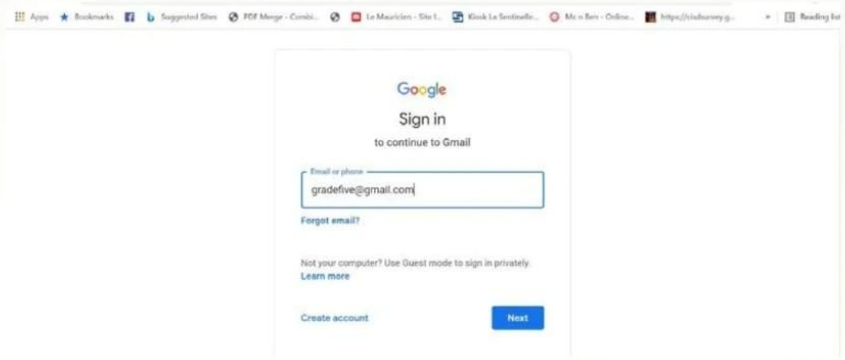
1. Teachers should create at least 3 gmail addresses per class to complete the following activities.
2. Teachers should provide username and password to each group of students.
3. Teachers are advised to change password after each lesson.

- Step 1: Open Google chrome web browser on taskbar.
- Step 2: Type gmail.com on the address bar.
- Step 3: This screens appears:

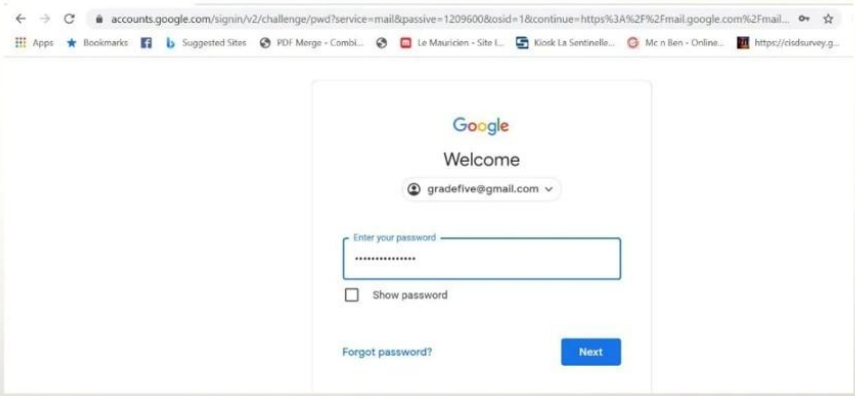
CREATING AN EMAIL ACCOUNT

ACTIVITY 1

- Step 4: Type the email address that has been given to you by your teacher.



- Step 5: Click on **Next.**
- Step 6: Type your password.



- Step 7: Click on Next.

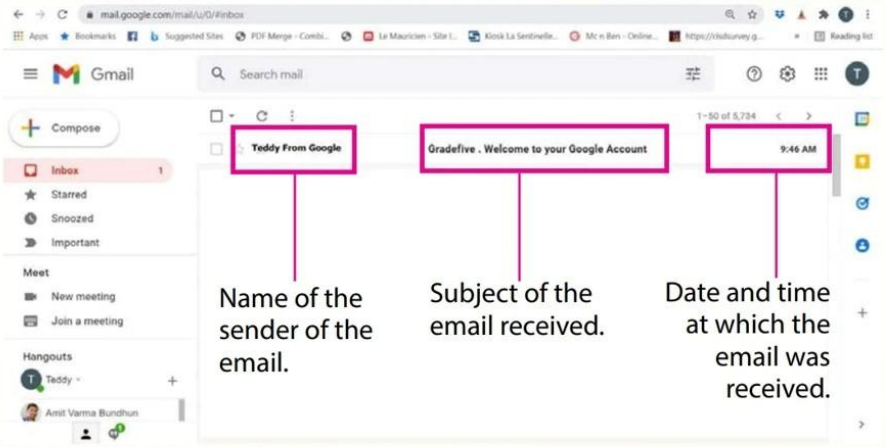
CREATING AN EMAIL ACCOUNT

ACTIVITY 1

- **Observation:**

The following screen appears. This is the Inbox.

Unread emails are in bold.

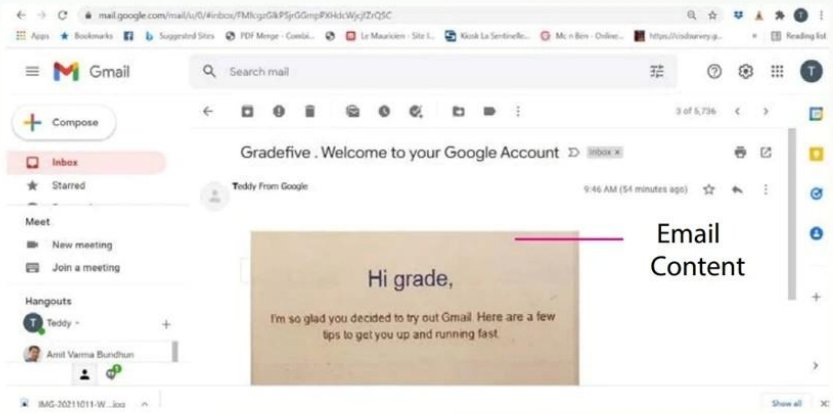


- Step 8: Click on the subject to open the email.

CREATING AN EMAIL ACCOUNT

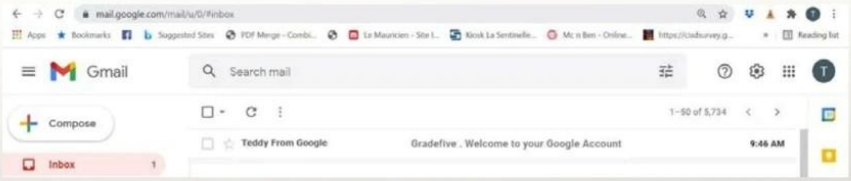
ACTIVITY 1

- The following screen appears.



- Step 9: Click on the Back to Inbox arrow to go back to the Inbox.

- All read emails are no longer in bold.



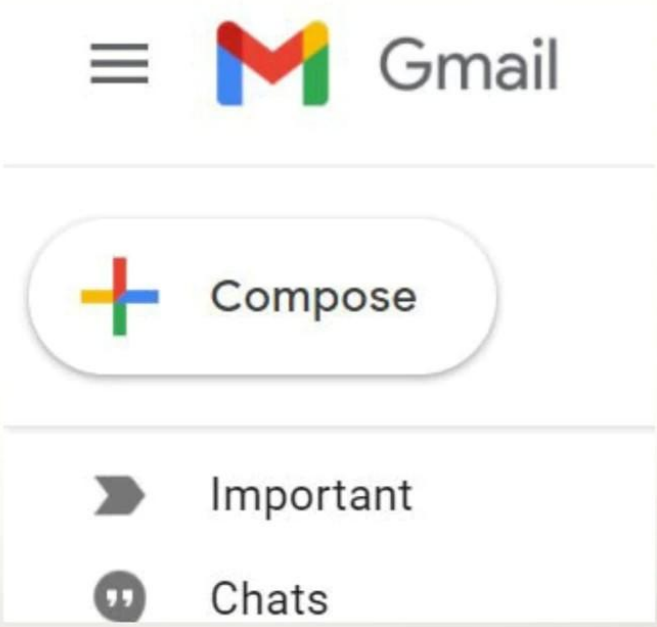
SENDING AN EMAIL

ACTIVITY 2

Activity 2: Sending an email

Before sending an email, you must compose it. To compose an email means to write it.

- Step 1: Repeat steps 1 to 7 in **Activity 1** to sign in.
- Step 2: Click on COMPOSE.

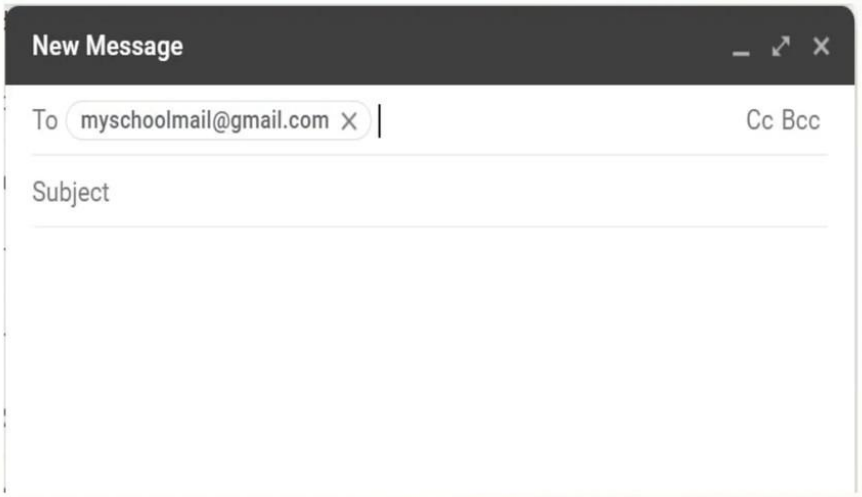


SENDING AN EMAIL

ACTIVITY 2

- **Observation:**

The new message box appears:



- Step 3: In the To Box , type the email address of the recipient, that is the person to whom you want to send the email .

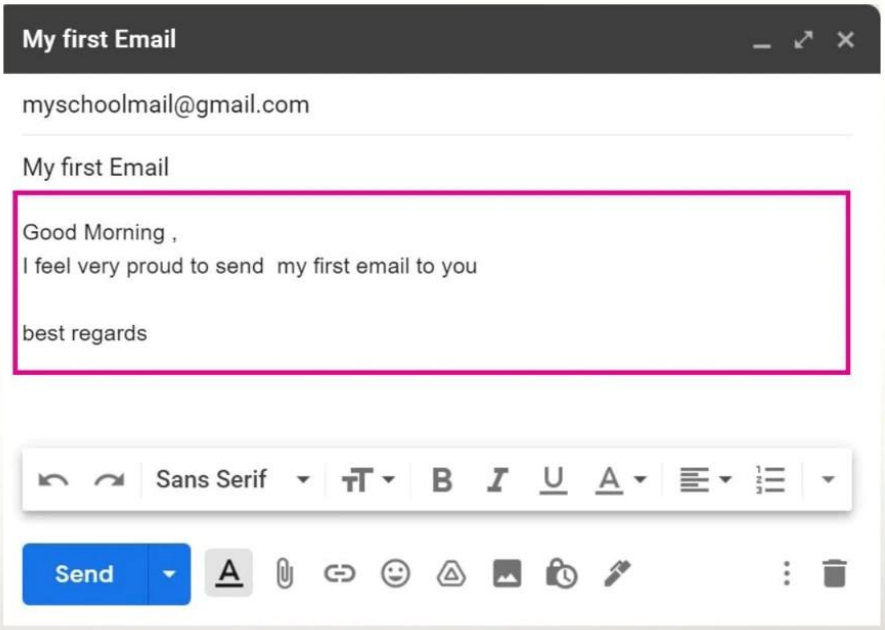
Make sure to enter the email address correctly , if even one character is wrong, the email will not be sent.

SENDING AN EMAIL

ACTIVITY 2

- Step 4: Type the subject of the email in the Subject box.

- Step 5: Type the following message in the body of the email.



SENDING AN EMAIL

ACTIVITY 2

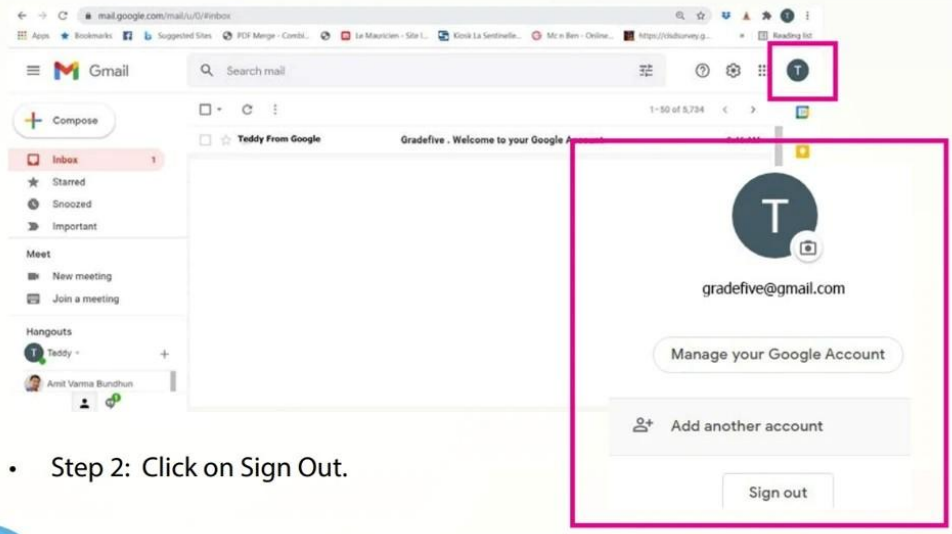
- Step 6: Click on Send. Your email has now been sent to the recipient.
- Step 7: Click on Sent to check the mail sent.

SIGNING OUT FROM YOUR EMAIL

ACTIVITY 3

Activity 3: Signing out from your email

- Step 1: Click on T .



- Step 2: Click on Sign Out.

NOTE TO TEACHERS:

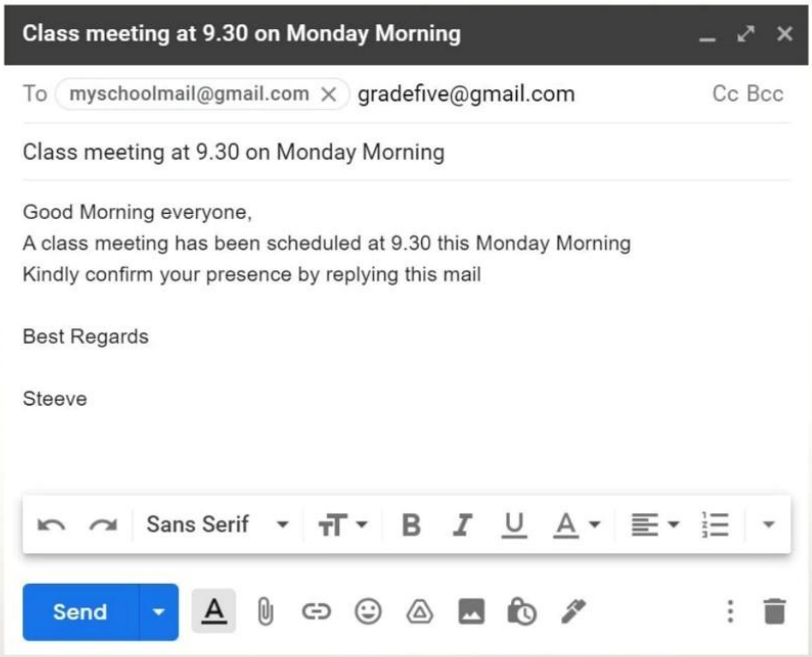
Teachers should ask pupils to sign out after each of the following activities.

SENDING AN EMAIL TO MORE THAN ONE PERSON

ACTIVITY 4

Activity 4: Sending an email to more than one person

- Step 1: Sign in to open your email.
- Step 2: Click on Compose button.
- Step 3: Enter the first email address in the 'To' box and press the spacebar.



SENDING AN EMAIL TO MORE THAN ONE PERSON

ACTIVITY 4

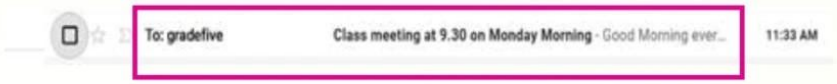
- Step 4: Enter a second email address.
- Step 5: Type the text in the subject box as shown above in the picture.
- Step 6: Click on Send.
- Step 7: Sign out from your email.

REPLYING TO AN EMAIL

ACTIVITY 5

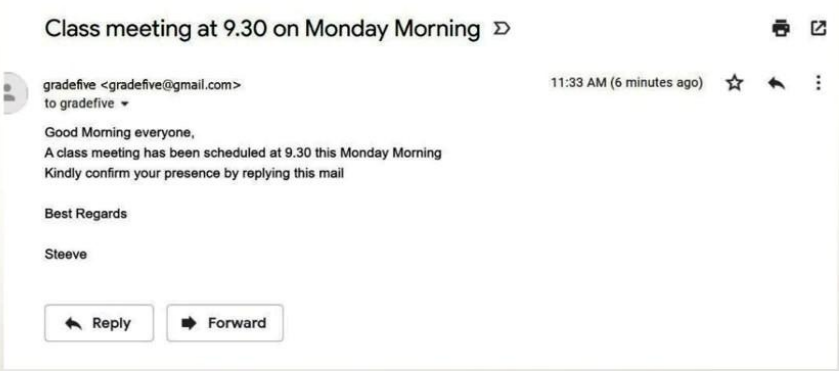
Activity 5: Replying to an email

- Step 1: Sign in to your email.
- Step 2: Open the email Class Meeting at 9.30 this Monday Morning by clicking on it.



- **Observation:**

The following screen appears:



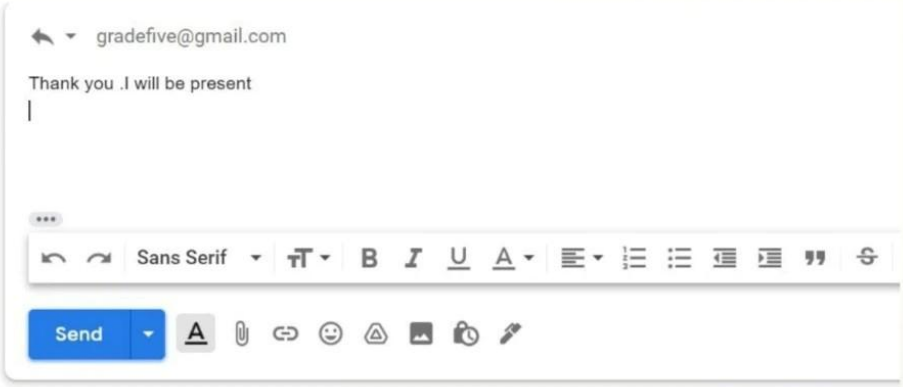
REPLYING TO AN EMAIL

ACTIVITY 5

- Step 3: Click on Reply.

Scroll down if the reply box does not appear on the screen.

- Step 4: Enter the following message in the Reply box.



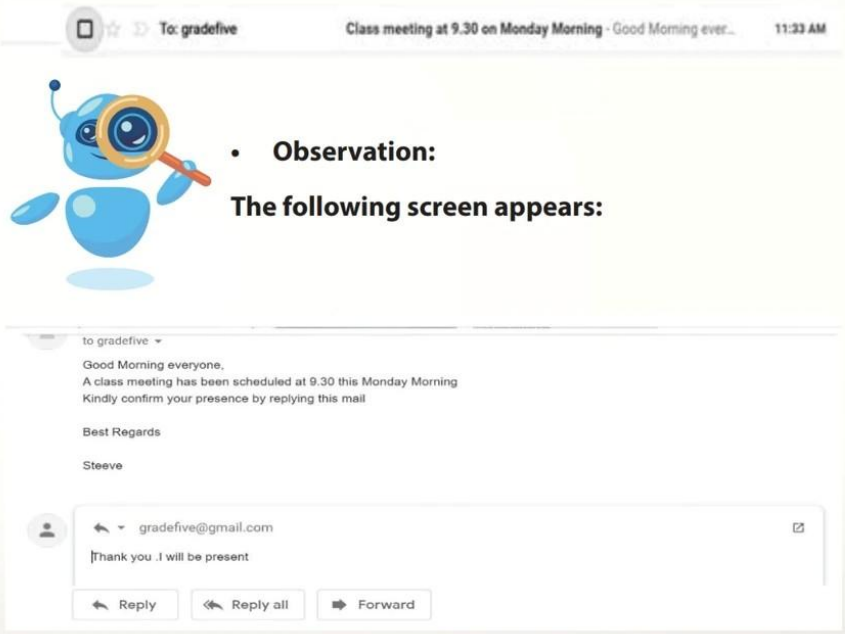
- Step 5: Click on Send.
- Step 6: Sign out from your email.

FORWARDING AN EMAIL

ACTIVITY 6

Activity 6: Forwarding an email

- Step 1: Sign in to your email.
- Step 2: Open the email Class Meeting at 9.30 this Monday Morning.



- **Observation:**

The following screen appears:

- Step 3: Click on Forward.

FORWARDING AN EMAIL

ACTIVITY 6

Scroll down if the reply box does not appear on the screen.

- Step 4: Enter the email address of the receiver in the 'To' box.

- Step 5: Click on Send.

NOTE TO TEACHERS:

Teachers should put the picture called Superman on Desktop.

Email the picture Superman to the three email addresses created for the students before this lesson.

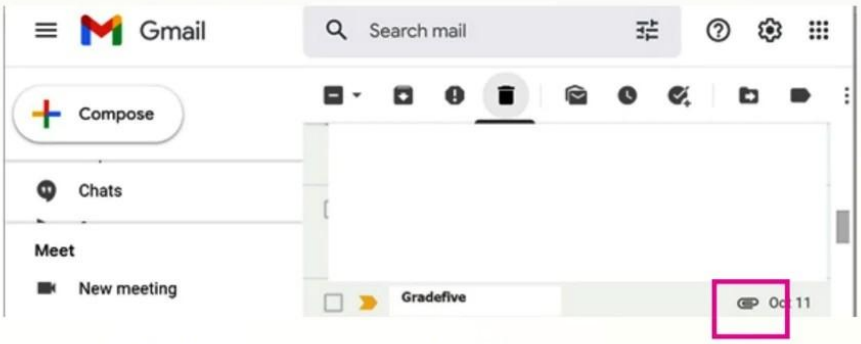
The picture will be used in the next activity.

SENDING YOUR FIRST ATTACHMENT

An attachment is a file se t through an email.

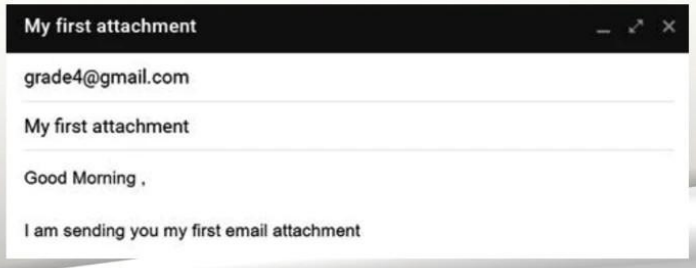
ACTIVITY 7

- **Gmail has a paperclip icon that contains an attachment.**



Activity 7: Sending your first ttachment

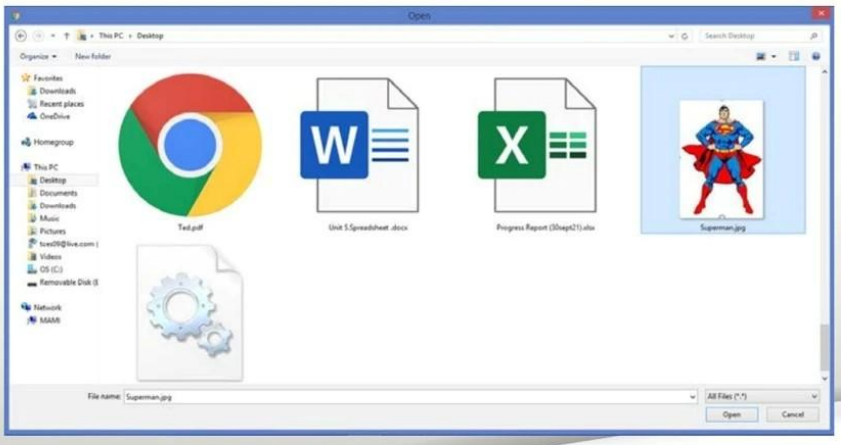
- Step 1: Sign in to your email account and compose a new email.
- Step 2: Enter an email address and the subject.
- Step 3: Type the following message as shown in the picture.



SENDING YOUR FIRST ATTACHMENT

ACTIVITY 7

- Step 4: Click on the paperclip to add an attachment.
- Step 5: The following window appears:



SENDING YOUR FIRST ATTACHMENT

ACTIVITY 7

- Step 6: Click on Desktop.
- Step 7: Scroll down and click on the Superman picture.
- Step 8: Click on Open.
- Step 9: The name of the document and a progress bar appear at the bottom of the new mail window.

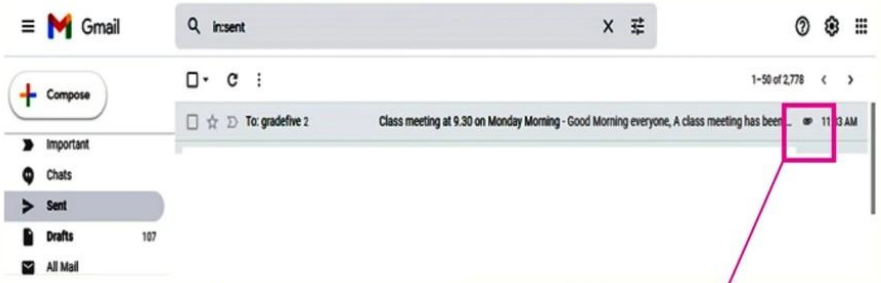
The attachment can be removed by clicking on 'x'.

- Step 10: When the attachment is complete, the progress bar will disappear.

SENDING YOUR FIRST ATTACHMENT

ACTIVITY 7

- Step 11: Click on Send.
- Step 12: Click on Sent to check if the mail has been sent.



The paperclip icon shows that the email has an attachment.

- Step 13: Sign out from your email.

OPENING AN EMAIL ATTACHMENT

ACTIVITY 8

Activity 8: Opening an email attachment

- Step 1: Sign in to your email.
- Step 2: Click on the email 'My First Attachment' to open it.

- **Observation:**

The following screen appears:

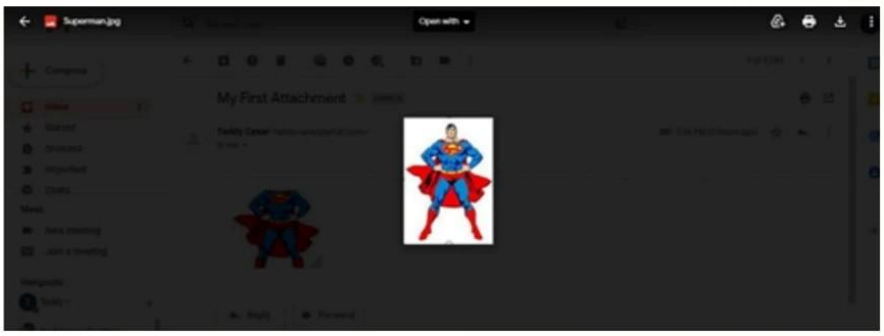
- Step 3: Click on the picture to open the attachment.

OPENING AN EMAIL ATTACHMENT

ACTIVITY 8

- **Observation:**

The following screen appears:



- Step 4: Click on download button now.
- Step 5: Sign out from your email .

EMAILS

EXTRA CHALLENGE

Through sending emails , you have surely come across these words (Bcc, Cc, To , Header , Subject. Recipient, drafts , trash, download) by asking yourself what they mean or represent when using email to send a mail.

Time to discover by yourself by doing a search on the internet .. Do you agree ?

Let's us explain one of the words.

''To'' : Here, you write the email address of the person (recipient) you wish and to whom you wish to send the email.

How to start ?

Simple : Open Google Web browser from your task bar.

Now type Bcc in the google search.

Enjoy your search.

UNIT 8

Multimedia: Working with Paint 3D

AIM:

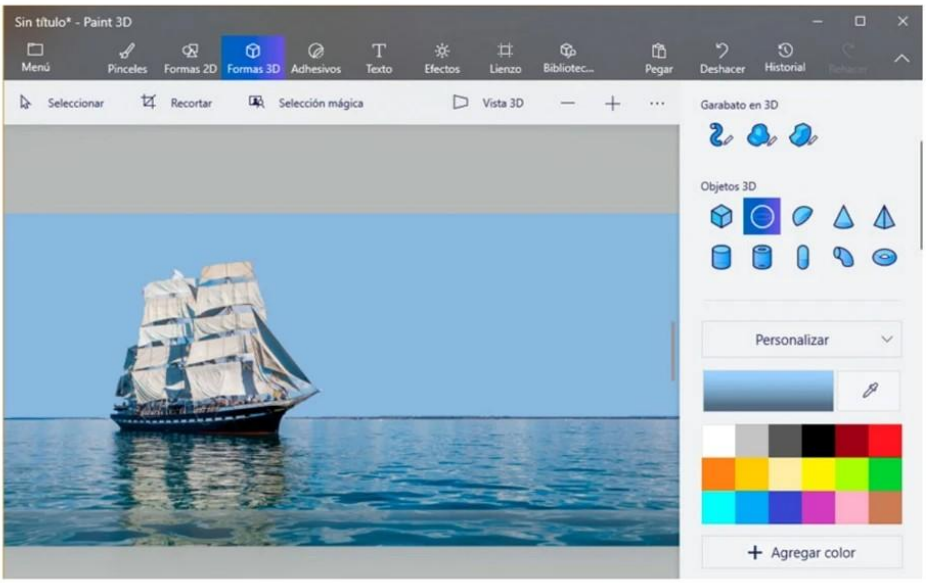
- To insert graphics and pictures from different sources.

LEARNING OBJECTIVES:

By the end of this unit, pupils should be able to:

- Use 3D graphics software.
- Insert a picture from a file y using copy and paste.
- Make drawings that include pictures imported from sources such as mobile devices and scanned images.

MULTIMEDIA: WORKING WITH PAINT 3D



Graphic software is a program that is used to create or edit pictures.

For example, Paint 3D is a graphic software that comes free with Windows 10. It allows you to create creative projects using 2D and 3D tools.

D (or 3-D) means three-dimensional or having three dimensions. For example,a box is three-dimensional; it is solid, and not thin like a piece of paper.

We will use Paint 3D software to complete the following activities.

OPENING THE GRAPHICS SOFTWARE – PAINT 3D

ACTIVITY 1

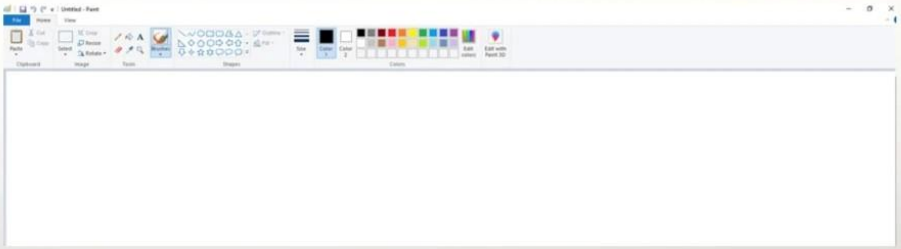
Activity 1: Opening the graphics software – Paint 3D

NOTE TO TEACHERS:

Pin Paint 3D program to taskbar before doing this activity.

- Step 1: Open Paint 3D program by clicking on the icon on the taskbar.

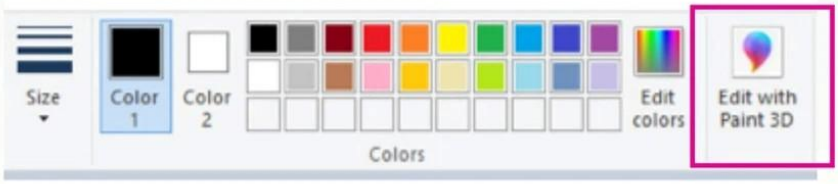
- The paint screen will appear as shown below:



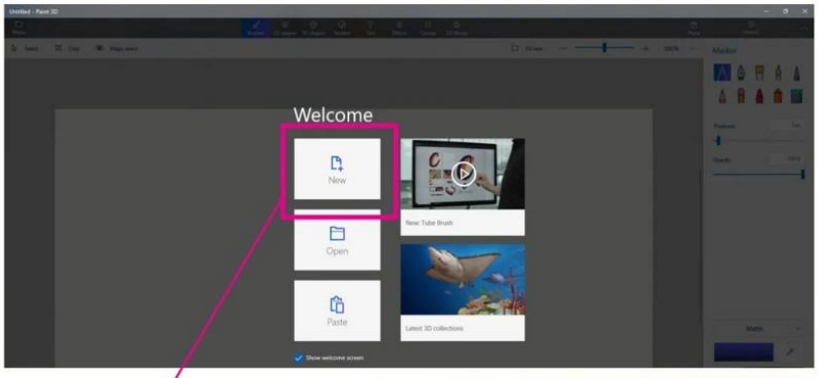
OPENING THE GRAPHICS SOFTWARE – PAINT 3D

ACTIVITY 1

- Step 2: Click on "Edit with Paint 3D" to open the program.



- Step 3: The Paint 3D screen will open.

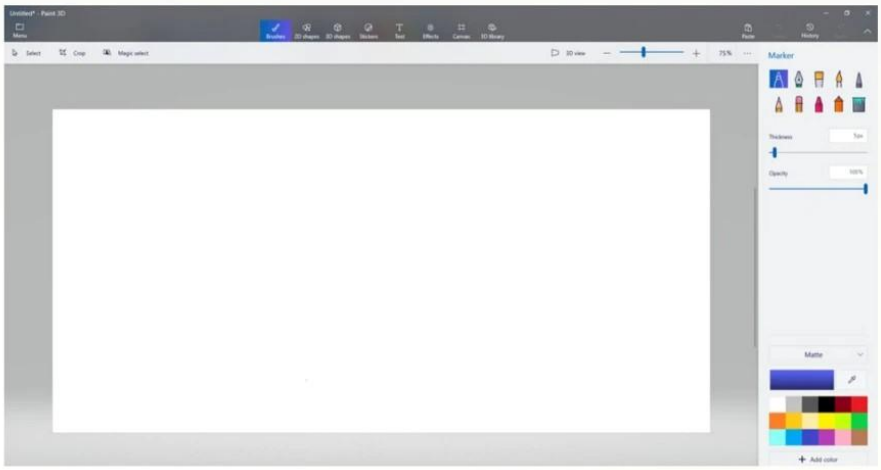


- Step 4: Click on New.

OPENING THE GRAPHICS SOFTWARE – PAINT 3D

ACTIVITY 1

- Step 5: The screen will appear as shown below:



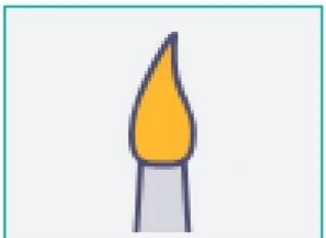
MULTIMEDIA: WORKING WITH PAINT 3D

Here are some of the tools you will use to draw and format your drawing.

Marker

Calligraphy pen

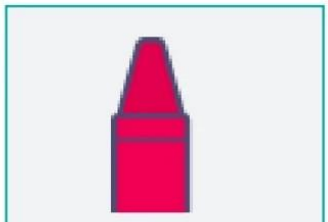
Oil brush



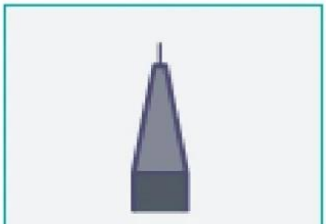
Watercolour

Pencil

Eraser

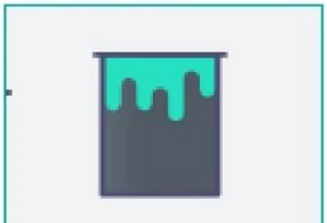


Crayon



Pixel pen

Spray can



Fill

MULTIMEDIA: WORKING WITH PAINT 3D

Here are some of the tools you will use to draw and format your drawing.
